REMEMBERING LIVES LOST AT
SANDY HOOK

(Mrs. HAYES asked and was given permission to address the House for 1 minute.)

Mrs. HAYES. Madam Speaker, I rise today to recognize the 26 beautiful lives that were lost on December 14, 2012.

Today marks 10 years since 20 innocent children and 6 selfless educators were murdered at Sandy Hook Elementary School in Newtown, Connecticut.

Newtown is a small community with a big heart, a community that changed forever 10 years ago. Bonded by a shared grief no one can ever truly comprehend, the lives of my constituents in this community were reshaped forever.

While this community has mourned the loss of their loved ones, they have also honored their memories through

service. Every single family who lost a loved one at Sandy Hook has found a way to be of service, with everything from violence prevention programs like Sandy Hook Promise, to Embrace Hope, which is an equine therapy program. There is the Ana Grace Project and Ben's Lighthouse, Charlotte's Litter Therapy Dog Program, the Emilie Parker Art Connection, and everything from butterflies to puppies. There is the Vicki Soto Project, which is a fund to promote a love of teaching.

These are just a few, but every single family affected honored the memory of their loved ones through service. These families have all found ways to turn their grief into action.

While I recognize that we have so much work to do as legislators in this body, my only ask of you today, colleagues, is that we not let the deaths of these children be in vain and that we recommit ourselves to making our schools and our communities safe and find ways to turn solemn moments like this into action.

MOMENT OF SILENCE IN REMEMBRANCE OF THE LIVES LOST IN
THE SANDY HOOK SHOOTING

The SPEAKER. The Chair asks all Members in the Chamber, as well as Members and staff throughout the Capitol, to rise for a moment of silence in continuing remembrance of the victims of the shooting at Sandy Hook Elementary School on December 14, 2012.

RECESS

The SPEAKER pro tempore (Ms. KAPTUR). Pursuant to clause 12(a) of rule I, the Chair declares the House in recess for a period of less than 15 minutes.

Accordingly (at 2 o'clock and 33 minutes p.m.), the House stood in recess.

□ 1442

AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Mr. SCHRADER) at 2 o'clock and 42 minutes p.m.

REQUEST TO CONSIDER H.R. 9525,
EXTEND THE FUNDING OF GOVERNMENT THROUGH FEBRUARY 3, 2023

Mr. ROY. Mr. Speaker, I ask unanimous consent to call up H.R. 9525 to extend the funding of government through February 3, 2023.

The SPEAKER pro tempore. Under guidelines consistently issued by successive Speakers, as recorded in section 956 of the House Rules and Manual, the Chair is constrained not to entertain the request unless it has been cleared by the bipartisan floor and committee leaderships.

PROVIDING RESEARCH AND ESTIMATES OF CHANGES IN PRECIPITATION ACT

Ms. DELAURO. Mr. Speaker, pursuant to House Resolution 1518, I call up the bill (H.R. 1437) to amend the Weather Research and Forecasting Innovation Act of 2017 to direct the National Oceanic and Atmospheric Administration to provide comprehensive and regularly updated Federal precipitation information, and for other purposes, with the Senate amendment thereto, and ask for its immediate consideration.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The Clerk will designate the Senate amendment.

Senate amendment:

Strike all after the enacting clause and insert the following:

SECTION 1. SHORT TITLE.

This Act may be cited as the “Providing Research and Estimates of Changes In Precipitation Act” or the “PRECIP Act”.

SEC. 2. AMENDMENT TO THE WEATHER RESEARCH AND FORECASTING INNOVATION ACT OF 2017 RELATING TO IMPROVING FEDERAL PRECIPITATION INFORMATION.

(a) IN GENERAL.—The Weather Research and Forecasting Innovation Act of 2017 (15 U.S.C. 8501 et seq.) is amended by adding at the end the following:

“TITLE VI—IMPROVING FEDERAL PRECIPITATION INFORMATION

“SEC. 601. STUDY ON PRECIPITATION ESTIMATION.

“(a) IN GENERAL.—Not later than 90 days after the date of enactment of the PRECIP Act, the Administrator, in consultation with other Federal agencies as appropriate, shall seek to enter an agreement with the National Academies—

“(1) to conduct a study on the state of practice and research needs for precipitation estimation, including probable maximum precipitation estimation; and

“(2) to submit, not later than 24 months after the date on which such agreement is finalized, to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate, and make publicly available on a website, a report on the results of the study under paragraph (1).

“(b) STUDY.—The report under subsection (a) shall include the following:

“(1) An examination of the current state of practice for precipitation estimation at scales appropriate for decisionmaker needs, and rationale for further evolution of this field.

“(2) An evaluation of best practices for precipitation estimation that are based on the best-available science, include considerations of non-stationarity, and can be utilized by the user community.

“(3) A framework for—

“(A) the development of a National Guidance Document for estimating extreme precipitation in future conditions; and

“(B) evaluation of the strengths and challenges of the full spectrum of approaches, including for probable maximum precipitation studies.

“(4) A description of existing research needs in the field of precipitation estimation in order to modernize current methodologies and consider non-stationarity.

“(5) A description of in-situ, airborne, and space-based observation requirements, that could enhance precipitation estimation and development of models, including an examination

of the use of geographic information systems and geospatial technology for integration, analysis, and visualization of precipitation data.

“(6) A recommended plan for a Federal research and development program, including specifications for costs, timeframes, and responsible agencies for addressing identified research needs.

“(7) An analysis of the respective roles in precipitation estimation of various Federal agencies, academia, State, tribal, territorial, and local governments, and other public and private stakeholders.

“(8) Recommendations for data management to promote long-term needs such as enabling retrospective analyses and data discoverability, interoperability, and reuse.

“(9) Recommendations for how data and services from the entire enterprise can be best leveraged by the Federal Government.

“(10) A description of non-Federal precipitation data, its accessibility by the Federal Government, and ways for National Oceanic and Atmospheric Administration to improve or expand such datasets.

“(c) AUTHORIZATION OF APPROPRIATIONS.—There is authorized \$1,500,000 to the National Oceanic and Atmospheric Administration to carry out this study.

“SEC. 602. IMPROVING PROBABLE MAXIMUM PRECIPITATION ESTIMATES.

“(a) IN GENERAL.—Not later than 90 days after the date on which the National Academies makes public the report under section 601, the Administrator, in consideration of the report recommendations, shall consult with relevant partners, including users of the data, on the development of a plan to—

“(1) not later than 6 years after the completion of such report and not less than every 10 years thereafter, update probable maximum precipitation estimates for the United States, such that each update considers non-stationarity;

“(2) coordinate with partners to conduct research in the field of extreme precipitation estimation, in accordance with the research needs identified in such report;

“(3) make publicly available, in a searchable, interoperable format, all probable maximum precipitation studies developed by the National Oceanic and Atmospheric Administration that the Administrator has the legal right to redistribute and deemed to be at an appropriate state of development on an internet website of the National Oceanic and Atmospheric Administration; and

“(4) ensure all probable maximum precipitation estimate data, products, and supporting documentation and metadata developed by the National Oceanic and Atmospheric Administration are preserved, curated, and served by the National Oceanic and Atmospheric Administration, as appropriate.

“(b) NATIONAL GUIDANCE DOCUMENT FOR THE DEVELOPMENT OF PROBABLE MAXIMUM PRECIPITATION ESTIMATES.—The Administrator, in collaboration with Federal agencies, State, territorial, Tribal and local governments, academia, and other partners the Administrator deems appropriate, shall develop a National Guidance Document that—
