STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. CARPER (for himself, Mr. CASEY, Mr. COONS, Mr. BOOKER, Mr. MENENDEZ, and Mr. SCHUMER):

S. 3767. A bill to amend the Water Infrastructure Improvements for the Nation Act to reauthorize Delaware River Basin conservation programs, and for other purposes; to the Committee on Environment and Public Works.

Mr. CARPER. Mr. President, today I am pleased to introduce, along with the Senator from Pennsylvania, Mr. CASEY, the Junior Senator from Delaware, Mr. COONS, the Senator from New Jersey, Mr. BOOKER, the Senator from New Jersey, Mr. MENENDEZ, and the Senator from New York, Mr. SCHUMER, the Delaware River Basin Conservation Reauthorization Act of 2022.

The Delaware River Basin Conservation Act became law as part of the Water Infrastructure Improvements for the Nation Act of 2016. This legislation, which I was proud to lead, responded to the need for Federal, State, and local governments and regional partners to come together to identify, prioritize, and implement restoration activities within the Delaware River Basin. The legislation also created a nonregulatory grant program for which appropriations have flowed through the U.S. Fish and Wildlife Service. The National Fish and Wildlife Foundation has done an excellent job of working with the Fish and Wildlife Service to administer the Delaware Watershed Conservation Fund under the authority of this act.

In just a few short years, this program has grown tremendously. To date, the Delaware Watershed Conservation Fund has awarded more than \$25 million to projects that support recreation, water quality, water management, and habitat. Grantees have matched that investment by a ratio of nearly 2 to 1—an impressive total conservation impact of over \$70 million.

This program is a great example of how when the government—at all levels—works with diverse suites of non-government stakeholders, we can achieve meaningful results on the ground that improve the lives of people and wildlife alike.

For example, the program has funded several diverse projects in Delaware, including installing pollinator gardens at places of worship, removing a dam in White Clay Creek, improving fish passage in the Brandywine River, and restoring wetlands at our national wildlife refuges. These restoration efforts protect the species we love, clean up our drinking water, and provide a boost to local tourism.

The legislation I am introducing today would reauthorize the Delaware River Basin Conservation Act and make some minor improvements to allow even better results on the ground throughout the Delaware River Watershed. This reauthorization has clear benefits for our environment and economy—a win-win for Delaware and our region.

I look forward to working with my colleagues to enact this important legislation this Congress. I ask unanimous consent that a copy of the bill I am introducing today appear in the Record following my statement.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:
