S. 4409. A bill to prohibit providers of email services from using filtering algorithms to flag emails from political campaigns that consumers have elected to receive as spam; to the Committee on Commerce, Science, and Transportation.

Mr. THUNE. Mr. President, former Google executive chairman Eric Schmidt, in writing with Jared Cohen, once said:

Modern technology platforms [are] even more powerful than most people realize [and that] our future world will be profoundly altered by their adoption and successfulness in societies everywhere.

There is no question that Big Tech plays an ever increasing role in our lives. I imagine most of us wouldn't even be able to count the number of times a day we interact with technology platforms, from checking our email to spending time on social media to searching on Google, and the pandemic only accelerated that trend as our reliance on technology for everything from social connection to food delivery increased.
