

go to a State like New Mexico when they want reproductive healthcare services.

Mr. Speaker, I yield back the balance of my time.

Mr. COLE. Mr. Speaker, I yield myself the balance of my time to close.

I urge all my colleagues to support the resolution.

Today's rule will make in order the Department of Defense Appropriations Act for fiscal year 2024. It will provide full and complete funding for our national defense needs, ensuring that our servicemembers are fairly paid, and supporting the well-being of military families.

It also makes certain that our troops will never face a fair fight by giving them every advantage possible. We make appropriate investments in the development and acquisition of weapons systems needed to preserve and defend freedom around the globe and restrict the Biden administration from forcing progressive ideology on the Armed Forces and circumventing the authority of Congress when it does so.

Bottom line, the bill targets resources to its new core mission, protecting our homeland and security interests and making sure that our forces are the best trained, the best equipped, and the best prepared in the world.

To my friends, it has been an interesting debate, as always. I enjoy exchanging observations with my good friend from New Mexico, and we strayed sometimes off this bill and off this rule.

I do want to mention a couple of things. The rule, I think even my friends would agree, is a pretty robust rule. We are going to have 184 amendments, a very thorough debate, so I look forward to that.

Second, it is lost sometimes, but we actually basically fund the military at the level that the President requested, so those people who think it is over the top probably should have their argument with the White House as opposed to us. Personally, I would have liked to have done more, but we are going to go with the President's number, essentially.

Finally, we do disagree about the manner in which the administration is using the military. We think they are advancing progressive ideology when they ought to be focused on weapons acquisition, training, and warfighting, and we think that ultimately weakens the country.

We live in a very dangerous world right now. I would actually argue we are not spending enough on defense when we look at what is happening in the Western Pacific with China; when we look at what the Russians are doing, the acts they are engaged in, in Ukraine. I want a robust budget, and I want one that we come together on.

In the end, I think we will be able to achieve that, and I look forward to working with my friends to accomplish that objective.

The material previously referred to by Ms. LEGER FERNANDEZ is as follows:

AN AMENDMENT TO H. RES. 680 OFFERED BY
