

we know the good things of which our country is capable.

Now, I do need to thank some of our fellow Members; specifically, the chairwoman of my committee, the Energy and Commerce Committee, Chairwoman RODGERS, Chairman SAM GRAVES of the Transportation and Infrastructure Committee, and Chairman COMER of the Oversight and Government Reform Committee for their hard work in delivering for the American people by bringing these bills to the floor and helping ensure that commitment to America and the future.

The Republican majority has again demonstrated that our governing agenda will be devoted to improving the lives of our Nation's citizens. Our governing majority will continue to focus on the issues that matter most to our people: combating the rising energy costs, sky-high inflation, rampant crime, our porous southern border, and theentanyl crisis.

These are the issues that the American voters rightfully demand that their Representatives address. The Republican majority is committed to solving the crises that the previous Democratic majority has inflicted on our Nation.

Ms. JACKSON LEE. Madam Speaker, I rise in strong opposition to the rule providing for consideration of H.R. 382—Pandemic is Over Act, H.R. 497—Freedom for Health Care Workers Act, H.R. 139—SHOW UP Act of 2023, and H.J. Res. 7—Relating to a national emergency declared by the President on March 13, 2020.

House Republicans have professed a commitment to transparency and fairness that allows all voices to be heard in the legislative process.

Yet, by House Republicans choosing a closed rule, have denied this body the right to weigh in on the rules or these bills.

Republicans are attempting to push through statements of principle that represent the entirety of the House without any reasonable consideration.

These bills have not been adequately considered in committee hearing by the committee of jurisdiction.

Amendments to these bills have not been raised or debated.

Now, with this closed Rule, members are unable to offer any amendments to each of these bills.

The business of the House is of the utmost importance to the American people.

Democrats remain committed to putting people over politics.

During 2020 within my District, the COVID-19 pandemic was surging and I worked desperately to bring COVID-19 testing and then vaccines to communities in need throughout my district.

At the time many Republican leaders refused to even acknowledge the reality of the pandemic.

Now the Republicans are furthering their narrative and lack of action on COVID-19 by attempting to normalize and even deny the horrors of the pandemic.

We should never forget the lives lost and all that we have learned for the pandemic.

In Harris County, over 11 thousand people have died of COVID-19 since 2020. Every one of those lives was important and we must work together to save every life possible.

Vaccines have saved lives and continue to save lives.

The issue of the pandemics' ongoing nature is a complex one that will need to consider potential seasonal surges and the need for annual vaccines.

The Republicans today barely secured a majority in the House and only chose a Speaker from their party after 14 votes. They cannot claim to have any mandate from the public.

We must continue to keep COVID-19 front of mind and create a plan of shifting to living with COVID-19 rather than these brash political statements.

I, for one, care about the safety of healthcare workers, the safety of my constituents, and the safety of workers.

The fact is that we must continue to identify the best way out of the COVID-19 pandemic with careful consideration of the science, and strategic plans that consider the uniqueness of each of the communities that we represent.

The rule before us makes bold unsubstantiated claims that threaten the safety of our healthcare workers, teleworkers, and the constituents in each of our districts.

There is a better way forward.

We must have more discussion and debate.

I cannot in good conscious support this rule.

The material previously referred to by MCGOVERN is as follows:
