ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). There are 2 minutes remaining.

□ 1411

So (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.

The result of the vote was announced as above recorded.

The title of the bill was amended so as to read: “A bill to prohibit data brokers from transferring personally identifiable sensitive data of United States individuals to foreign adversaries, and for other purposes.”.

A motion to reconsider was laid on the table.

PERSONAL EXPLANATION

Mr. STANTON. Mr. Speaker, I was necessarily absent and missed three votes on the House Floor. Had I been present, I would have voted “nay” on rollcall No. 89, Motion on Ordering the Previous Question on H. Res. 1085. “no” on rollcall No. 90, H. Res. 1085 and “yea” on rollcall No. 91, H.R. 7520.

PROTECTING AMERICAN ENERGY PRODUCTION ACT

Mr. STAUBER. Mr. Speaker, pursuant to House Resolution 1085, I call up the bill (H.R. 1121) to prohibit a moratorium on the use of hydraulic fracturing, and ask for its immediate consideration in the House.

The Clerk read the title of the bill.

The SPEAKER pro tempore (Mr. DESJARLAIS). Pursuant to House Resolution 1085, the bill is considered read.

The text of the bill is as follows:

H.R. 1121

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Protecting American Energy Production Act”.

SEC. 2. PROTECTING AMERICAN ENERGY PRODUCTION.

(a) SENSE OF CONGRESS.—It is the sense of Congress that States should maintain primacy for the regulation of hydraulic fracturing for oil and natural gas production on State and private lands.

(b) PROHIBITION ON DECLARATION OF A MORATORIUM ON HYDRAULIC FRACTURING.—Notwithstanding any other provision of law, the President may not declare a moratorium on the use of hydraulic fracturing unless such moratorium is authorized by an Act of Congress.

The SPEAKER pro tempore. The bill shall be debatable for 1 hour equally divided and controlled by the chair and ranking minority member of the Committee on Natural Resources or their respective designees.

The gentleman from Minnesota (Mr. STAUBER) and the gentlewoman from California (Ms. KAMLAGER-DOVE) each will control 30 minutes.

The Chair recognizes the gentleman from Minnesota (Mr. STAUBER).

GENERAL LEAVE

Mr. STAUBER. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material on H.R. 1121.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Minnesota?

There was no objection.

Mr. STAUBER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise today in support of H.R. 1121, the Protecting American Energy Production Act.

H.R. 1121, introduced by Congressman DUNCAN, would prevent any President from issuing a moratorium on hydraulic fracturing while also establishing a sense of Congress that States should regulate the practice on State and private land.

Hydraulic fracturing has been around for almost 100 years. The practice, combined with recent technological improvements and the advent of horizontal drilling, has propelled the United States to global energy superpower status.

This surge in supply has contributed to lower energy prices for consumers, stimulating economic growth, and improving the quality of life for all Americans.

In truth, a ban on hydraulic fracturing would cripple the American economy while surrendering world energy leadership to Russia, Iran, and China.

Federal efforts to regulate fracking, which is currently adequately regulated by the States, could have an equally devastating impact.
