

ObamaCare, for the last 12 years. Project 2025 wants to give wealthy corporations another tax break.

It is not enough that multibillion dollar corporations got the biggest tax break in American history under Donald J. Trump. They want to give corporations more.

Notice how one-sided this is. They want to give corporations a big tax break, where Project 2025 says nothing about increasing wages.

Follow the wickedness of the logic. Corporations get bigger tax breaks so they can keep more of the money workers made for them, but the workers don't get to participate in the success of the corporation by having an increase in their wages.

Project 2025 calls for an end to Social Security, our great safety net program. Goal 3 of Project 2025 says that only a nuclear family should receive governmental support. This is a part of the ill-fated logic of J.D. VANCE and Donald J. Trump.

If you are a single mother raising your children or a grandparent raising your grandchildren, Project 2025 says that the government should not make you a priority, and basically, you are not a family.

The policies and prescriptions of Project 2025 would lead to the greatest assault on Medicaid and Medicare in the history of this Nation.

This is what we are up against. This is why we are determined not to let it happen. We are determined to fight for what is right. We are determined to resist.

Once again, I thank the Honorable Congressman HUFFMAN from the great State of California for championing this cause and for calling us out here tonight. I thank him for his undying commitment to our American democracy and his fight for what is right.

Mr. HUFFMAN. Mr. Speaker, I thank the gentleman from Illinois for speaking to the extremism and cruelty of Trump's Project 2025 so eloquently, and he is exactly right. Healthcare is in the crosshairs.

One of the many ways in which Project 2025 would take us backward on healthcare is by mandating that the default for Medicare would be Medicare Advantage.

They like that because they can monetize it, make a lot of money on it, right, but it absolutely is expensive. It is accelerating the demise of the Medicare trust fund.

They want to repeal the prescription drug reforms that we have been able to pass, the first time we have been able to stand up to Big Pharma in decades.

We are saving Medicare billions and billions of dollars. We are saving consumers so much money already, and those savings are going to grow and grow in the years ahead.

All of that goes away under Project 2025. It is bad for the pocketbooks of the American people, bad for healthcare, and bad for the Medicare trust fund and Medicare itself. The gentleman is exactly right.

Mr. JACKSON of Illinois. Mr. Speaker, I thank the gentleman for his outstanding leadership.

Mr. HUFFMAN. Mr. Speaker, House Democrats are going to continue to shine a bright light on this document. The American people don't need to take our word for it when we talk about the extremism and cruelty and other impacts that Trump's Project 2025 would have. They can read it themselves.

It is online. Look it up. The more people read it, the more they understand it, the more we know they are going to want nothing to do with it. The best way to stop this terrible agenda is to just make sure people know about it and understand it.

We are grateful for this opportunity to discuss it, and I yield back the balance of my time.

The SPEAKER pro tempore. The Chair reminds Members to refrain from engaging in personalities toward nominees for the office of President.
