SENATE RESOLUTION 157—DESIGNATING APRIL 2025 AS "NATIONAL NATIVE PLANT MONTH"

Mrs. HYDE-SMITH (for herself, Ms. HIRONO, Mr. BOOKER, Mr. COTTON, Mr. HEINRICH, Mr. WYDEN, and Mr. HUSTED) submitted the following resolution; which was considered and agreed to:

S. Res. 157

Whereas native plants are indigenous species that have evolved alongside native wildlife and occur naturally in a particular geographic region, ecosystem, and habitat;

Whereas there are more than 17,000 native plant species in the United States, which include large shade trees, understory trees, shrubs, perennials, vines, grasses, and wildflowers:

Whereas native plants are essential for healthy, diverse, and sustainable ecosystems and are critical for cleaning air, filtering water, and stabilizing soils;

Whereas native plants are well-adapted to specific soils, temperatures, precipitation, and environmental conditions, making them the best option for conserving and protecting the environment and adapting to environmental changes;

Whereas native plants provide shelter as well as nectar, pollen, seeds, and foliage that serve as food for native butterflies, caterpillars, birds, bees, and other wildlife in ways that non-native plants cannot:

Whereas more than 200 of the native plant species in the United States are estimated to have been lost since the early 19th century;

Whereas habitat loss and degradation, extreme weather events, and invasive species have contributed to the decline of native plants in the United States; and

Whereas native plants are essential components of resilient ecosystems and the natural heritage of the United States: Now, therefore be it

Resolved, That the Senate—

- (1) designates April 2025 as "National Native Plant Month"; and
- (2) recognizes the benefits of native plants to the environment and economy of the United States.
