40 CFR Parts 52 and 81

[A-1-FRL-5249-5]

Clean Air Act Promulgation of Extension of Attainment Date for Ozone Nonattainment Area; Maine

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: EPA is extending the attainment date for the Hancock and Waldo Counties, a marginal ozone nonattainment area in Maine to November 15, 1994. This extension is based in part on monitored air quality readings for the national ambient air quality standard for ozone during 1993. This notice also updates tables in 40 CFR 52.1024 and 40 CFR 81.320 concerning attainment dates in the State of Maine.

EFFECTIVE DATE: This extension becomes effective July 28, 1995.

FOR FURTHER INFORMATION CONTACT:

Richard P. Burkhart, Air, Pesticides and Toxics Management Division, U.S. Environmental Protection Agency, Region I, JFK Federal Bldg., Boston, MA 02203. Phone: 617-565-3244.

SUPPLEMENTARY INFORMATION: On Feb. 22, 1995 (60 FR 9813), EPA published

a notice of proposed rulemaking (NPR) for the State of Maine. The NPR proposed extending the attainment deadline for ozone for Hancock and Waldo Counties, and asked for public comment. No comments were received.

CAA Requirements and EPA Actions Concerning Designation and Classification

Section 107(d)(4) of the Clean Air Act as amended in 1990 (CAA) required the States and EPA to designate areas as attainment, nonattainment, or unclassifiable for ozone as well as other pollutants for which national ambient air quality standards (NAAQS) have been set. Section 181(a)(1) (table 1) required that ozone nonattainment areas be classified as marginal, moderate, serious, severe, or extreme, depending on their air quality.

In a series of **Federal Register** notices, EPA completed this process by designating and classifying all areas of the country for ozone. See, e.g., 56 FR 58694 (Nov. 6, 1991); 57 FR 56762 (Nov. 30, 1992); 59 FR 18967 (April 21, 1994).

Areas designated nonattainment for ozone are required to meet attainment dates specified under the Act. For areas classified marginal through extreme, the attainment dates range from November 15, 1993 through November 15, 2010. A discussion of the attainment dates is found in 57 FR 13498 (April 16, 1992) (the General Preamble).

The Hancock and Waldo Counties, Maine area was designated nonattainment and classified marginal for ozone pursuant to 56 FR 58694 (Nov. 6, 1991). By this classification, its attainment date became November 15, 1993.

CAA Requirements and EPA Actions Concerning Meeting the Attainment Date

Section 181(b)(2)(A) requires the Administrator, within six months of the attainment date, to determine whether ozone nonattainment areas attained the NAAQS. For ozone, EPA determines attainment status on the basis of the expected number of exceedances of the NAAQS over the three-year period up to, and including, the attainment date. See General Preamble, 57 FR 13506. In the case of ozone marginal nonattainment areas, the three-year period is 1991-93. CAA section 181(b)(2)(A) further states that, for areas classified as marginal, moderate, or serious, if the Administrator determines that the area did not attain the standard by its attainment date, the area must be reclassified upwards.

However, CAA section 181(a)(5) provides an exemption from these bump

up requirements. Under this exemption, EPA may grant up to two one-year extensions of the attainment date under specified conditions:

Upon application by any State, the Administrator may extend for 1 additional year (hereinafter referred to as the "Extension Year") the date specified in table 1 of paragraph (1) of this subsection if—

(A) the State has complied with all requirements and commitments pertaining to the area in the applicable implementation plan, and

(B) no more than 1 exceedance of the national ambient air quality standard level for ozone has occurred in the area in the year preceding the Extension Year.

No more than 2 one-year extensions may be issued under this paragraph for a single nonattainment area.

EPA interprets this provision to authorize the granting of a one-year extension under the following minimum, conditions: (i) The State requests a one-year extension, (ii) all requirements and commitments in the EPA-approved SIP for the area have been complied with, and (iii) the area has no more than one measured exceedance of the NAAQS during the year that includes the attainment date (or the subsequent year, if a second one-year extension is requested).

EPA Action

On February 22, 1994 (60 FR 9813) EPA proposed to grant a one-year extension of the attainment date for the Hancock and Waldo Counties, Maine nonattainment area. Air quality

monitors for this area revealed two exceedances of the ozone National Ambient Air quality Standard during the three year period from 1991 to 1993. Both exceedances occurred in 1991, at a monitor located in Hancock County at a site operated by the National Park Service. The site had data capture problems in both 1991 and 1992. In 1993 the Maine Department of Environmental Protection took over maintenance of the site and data capture improved greatly. Since 1991 the site has not had any exceedances of the NAAQS. EPA received no comments on this proposal.

Today EPA is granting the request for extension. Accordingly, EPA is proposing to establish a new attainment date for the Hancock and Waldo Counties, Maine area as November 15, 1994.

Regulatory Process

Under E.O. 12866, this action has been exempted from the Office of Management and Budget's review.

Under the Regulatory Flexibility Act, 5 U.S.C. 600 et seq., EPA must prepare a regulatory flexibility analysis assessing the impact of any proposed or final rule on small entities. 5 U.S.C. 603 and 604. Alternatively, EPA may certify that the rule will not have a significant impact on a substantial number of small entities. Small entities include small businesses, small not-for-profit enterprises, and government entities with jurisdiction over populations of

less than 50,000. Attainment date extensions under section 181(a)(5) of the CAA do not create any new requirements; therefore, I certify that this action will not have a significant impact on small entities.
