[CA 95–2–6862; FRL–5144–6]

Approval and Promulgation of Implementation Plans California State Implementation Plan Revision Sacramento Metropolitan Air Quality Management District

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: EPA is finalizing the approval of a revision to the California State Implementation Plan (SIP) proposed in the **Federal Register** on December 8, 1994. The revision concerns a rule from the Sacramento Metropolitan Air Quality Management District (SMAQMD). This approval action will incorporate this rule into the federally approved SIP. The intended effect of approving this rule is to regulate emissions of volatile organic compounds (VOCs) in accordance with the requirements of the Clean Air Act, as amended in 1990 (CAA or the Act). The revised rule controls VOC emissions from bakery ovens. Thus, EPA is finalizing the approval of this revision into the California SIP under provisions of the CAA regarding EPA action on SIP submittals, SIPs for national primary and secondary ambient air quality standards and plan requirements for nonattainment areas.

EFFECTIVE DATE: This action is effective on March 1, 1995.

ADDRESSES: Copies of the rule revision and EPA’s evaluation report for the rule are available for public inspection at EPA’s Region IX office during normal business hours. Copies of the submitted

rule revision are available for inspection at the following locations:

Rulemaking Section (A–5–3), Air and Toxics Division, U.S. Environmental Protection Agency, Region IX, 75 Hawthorne Street, San Francisco, CA 94105.

SUPPLEMENTARY INFORMATION:

Background

On December 8, 1994 in 59 FR 63288, EPA proposed to approve the following rule into the California SIP: SMAQMD’s Rule 458, Large Commercial Bakeries. Rule 458 was adopted by SMAQMD on June 7, 1994. This rule was submitted by the California Air Resources Board (CARB) to EPA on July 13, 1994. This rule was submitted in response to EPA’s 1988 SIP-Call and the CAA section 182(b)(2)(C) requirement that nonattainment areas submit reasonably available control technology (RACT) rules for all major sources of VOCs by November 15, 1992 (the RACT catch-up requirements). A detailed discussion of the background of the above rule and nonattainment area is provided in the NPRM cited above.

EPA has evaluated the above rule for consistency with the requirements of the CAA and EPA regulations and EPA interpretation of these requirements as expressed in the various EPA policy guidance documents referenced in the NPRM cited above. EPA has found that the rule meets the applicable EPA requirements. A detailed discussion of the rule provisions and evaluations has been provided in 59 FR 63288 and in the technical support document (TSD) available at EPA’s Region IX office (TSD dated July 28, 1994).

Response to Public Comments

A 30-day public comment period was provided in 59 FR 63288. No comments were received.

EPA Action

EPA is finalizing action to approve the above rule for inclusion into the California SIP. EPA is approving the submittal under section 110(k)(3) as meeting the requirements of section

110(a) and part D of the CAA. This approval action will incorporate this rule into the federally approved SIP. The intended effect of approving this rule is to regulate emissions of VOCs in accordance with the requirements of the CAA.

Nothing in this action should be construed as permitting or allowing or establishing a precedent for any future request for revision to any state implementation plan. Each request for revision to the state implementation plan shall be considered separately in light of specific technical, economic, and environmental factors and in relation to relevant statutory and regulatory requirements.

Regulatory Process

The OMB has exempted this action from review under Executive Order 12866 which superseded Executive Order 12866.
