SUPPLEMENTARY INFORMATION:

I. Background

On June 5, 2008 (73 FR 31947), EPA published a notice of proposed rulemaking (NPR) for the Commonwealth of Pennsylvania. The NPR proposed approval of Pennsylvania's SIP revision that establishes a maintenance plan for the Schuylkill County Area that provides for continued attainment of the 8-hour ozone NAAQS for at least 10 years after designation, and a 2002 base-year emissions inventory. The formal SIP revisions were submitted by PADEP on December 17, 2007. Other specific requirements of Pennsylvania's SIP revision and the rationales for EPA's proposed actions are explained in the NPR and will not be restated here. No public comments were received on the NPR.

II. Final Action

EPA is approving the maintenance plan and the 2002 base-year inventory for the Schuylkill County Area, submitted on December 17, 2007, as revisions to the Pennsylvania SIP. EPA is approving the maintenance plan and 2002 base-year inventory for the Schuylkill County Area because it meets the requirements of section 110(a)(1) of the CAA.

III. Statutory and Executive Order Reviews

A. General Requirements

Under the Clean Air Act, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the Clean Air Act. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those

imposed by state law. For that reason, this action:

- Is not a "significant regulatory action" subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);
- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the Clean Air Act; and
- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, this rule does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIP is not approved to apply in Indian country located in the state, and EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law.

B. Submission to Congress and the Comptroller General

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the

Congress and to the Comptroller General of the United States. EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. 804(2).

C. Petitions for Judicial Review

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by October 7, 2008. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action approving the maintenance plan and the 2002 base-year inventory for the Schuylkill County Area may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

[GSAR Amendment 2008-01; GSAR Case 2006-G505; (Change 22); Docket 2008-0007, Sequence 1]

RIN 3090-A170

General Services Administration Acquisition Regulation; Rewrite of GSAR Part 522, Application of Labor Laws to Government Acquisitions

AGENCIES: General Services Administration (GSA), Office of the Chief Acquisition Officer.

ACTION: Final rule.

SUMMARY: The General Services Administration (GSA) is amending the General Services Administration Acquisition Regulation (GSAR) to revise language pertaining to application of labor laws to Government acquisitions. This rule is a product of the General Services Administration Acquisition Manual (GSAM) Rewrite Initiative, undertaken by GSA to revise the regulation to maintain consistency with the FAR and implement streamlined and innovative acquisition procedures for contractors, offerors, and GSA contracting personnel. The GSAM incorporates the GSAR as well as internal agency acquisition policy.

DATES: *Effective Date:* August 8, 2008.

FOR FURTHER INFORMATION CONTACT The Regulatory Secretariat (VPR), Room 4041, GS Building, Washington, DC, 20405, (202) 501-4755, for information pertaining to status or publication schedules. For clarification of content, contact Mr. Ernest Woodson, Procurement Analyst, at (202) 501-3775. Please cite Amendment 2008-01, GSAR case 2006-G505, (Change 22).

SUPPLEMENTARY INFORMATION:

A. Background

The GSAR Rewrite Project

GSA published an Advance Notice of Proposed Rulemaking (ANPR) in the **Federal Register** at 71 FR 7910, February 15, 2006 with request for comments because the agency was beginning the review and update of the General Services Administration Acquisition Regulation (GSAR).

- This GSAR rewrite has—
- Changed “you” to “contracting officer.”
 - Maintained consistency with the FAR but eliminated duplication.
 - Revised GSAR sections that are out of date or imposed inappropriate burdens on the Government or contractors, especially small businesses.
 - Streamlined and simplified procedures, guidance, and policies wherever possible.

In addition, GSA has recently reorganized into two (2) operating services rather than three (3). Therefore, the reorganization of the Federal Supply Service (FSS) and the Federal Technology Service (FTS) into the Federal Acquisition Service (FAS) was considered in the Rewrite Initiative.

The Rewrite of Part 522

This final rule contains the revisions made to Part 522, Application of Labor Laws to Government Acquisitions. There are no substantive changes to the policies. Information previously contained in GSAR 522.101-1 regarding the necessary impartiality of GSA personnel in disputes between labor and contractor management is deleted as unnecessary because it repeats Federal Acquisition Regulation (FAR) language. GSAR 522.101-1(b) adds language to require contracting officers to notify the Office of General Counsel and the agency labor advisor when they are contacted by external organizations. GSAR 522.103-5 is revised to clarify that FAR clause 52.222-1, Notice to the Government of Labor Disputes, must be inserted in solicitations and contracts for DX-rated orders under the Defense Priorities and Allocations System (DPAS). GSAR Subpart 522.4, Labor Standards for Contracts, is deleted in its entirety because of its potential for conflict with FAR Subpart 22.4.

GSAR 522.804-1(b) is revised to indicate that contractors, subcontractors, and financial institutions must develop a written affirmative action compliance program for each of its establishments regardless of the contract or holding value, in accordance with 41 CFR 60-1.40. Paragraph 522.805(b) is revised to add websites that list the various Office of Federal Contract Compliance Programs (OFCCP) Regional Offices.

Discussion of Comments

As a result of the ANPR, GSA did not receive any comments pertaining to GSAR Part 522.

This is not a significant regulatory action and, therefore, was not subject to review under Section 6(b) of Executive Order 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

B. Regulatory Flexibility Act

The General Services Administration certifies that this final rule will not have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, because no new requirements are being placed on the vendor community. No comments on this issue were received from small business concerns or other interested parties.

C. Paperwork Reduction Act

The Paperwork Reduction Act does not apply because the changes to the GSAR do not impose recordkeeping or information collection requirements, or otherwise collect information from offerors, contractors, or members of the public that require approval of the Office of Management and Budget under 44 U.S.C.3501, *et seq.*
