

copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by June 3, 2013. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of

judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. *See* section 307(b)(2).

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Incorporation by reference, Intergovernmental relations, Nitrogen dioxide, Particulate Matter, Reporting and recordkeeping requirements, Volatile organic compounds.

Dated: March 26, 2013.

A. Stanley Meiburg,

Acting Regional Administrator, Region 4.

40 CFR part 52 is amended as follows:

PART 52—[AMENDED]

■ 1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

Subpart K—Florida

■ 2. Section 52.520(e) is amended by adding two new entries for “110(a)(1) and (2) Infrastructure Requirements for the 1997 Fine Particulate Matter National Ambient Air Quality Standards” and “110(a)(1) and (2) Infrastructure Requirements for the 2006 Fine Particulate Matter National Ambient Air Quality Standards” at the end of the table to read as follows:

§ 52.520 Identification of plan.

* * * * *
(e) * * *

EPA-APPROVED FLORIDA NON-REGULATORY PROVISIONS

Provision	State effective date	EPA approval date	Federal Register notice	Explanation
110(a)(1) and (2) Infrastructure Requirements for 1997 Fine Particulate Matter National Ambient Air Quality Standards.	4/18/2008	4/3/2013	[Insert citation of publication]	EPA disapproved the State’s prong 3 of section 110(a)(2)(D)(i) as it relates to GHG PSD permitting requirements.
110(a)(1) and (2) Infrastructure Requirements for 2006 Fine Particulate Matter National Ambient Air Quality Standards.	9/23/2009	4/3/2013	[Insert citation of publication]	EPA disapproved the State’s prong 3 of section 110(a)(2)(D)(i) as it relates to GHG PSD permitting requirements.

40 CFR Parts 52 and 81

[Docket No.: EPA–R10–OAR–2012–0017; FRL–9796–5]

Approval and Promulgation of Implementation Plans; Idaho: Sandpoint PM₁₀ Nonattainment Area Limited Maintenance Plan and Redesignation Request

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The EPA is approving in part and disapproving in part the Limited Maintenance Plan (LMP) submitted by the State of Idaho on December 14, 2011, for the Sandpoint nonattainment area (Sandpoint NAA) for particulate matter with an aerodynamic diameter less than or equal to a nominal 10 micrometers (PM₁₀), and approving the State’s request to redesignate this area to

attainment for the PM₁₀ National Ambient Air Quality Standards (NAAQS). The EPA is disapproving a separable part of the Sandpoint NAA LMP that does not meet LMP eligibility criteria or applicable requirements under the Clean Air Act (CAA). The part of the Sandpoint NAA LMP that the EPA is approving complies with applicable requirements and meets the requirements of the CAA for full approval. The EPA is also approving the State’s redesignation request because it meets CAA requirements for redesignation.

DATES: This final rule is effective on May 3, 2013.

ADDRESSES: The EPA has established a docket for this action under Docket Identification No. EPA–R10–OAR–2012–0017. All documents in the docket are listed on the *www.regulations.gov* Web site. Although listed in the index, some information may not be publicly available, *i.e.*, Confidential Business Information or other information the disclosure of which is restricted by statute. Certain other material, such as copyrighted material, is not placed on

the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either electronically through *www.regulations.gov* or in hard copy at EPA Region 10, Office of Air, Waste and Toxics (AWT–107), 1200 Sixth Avenue, Suite 900, Seattle, WA 98101. The EPA requests that you contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section to schedule your inspection. The Regional Office’s official hours of business are Monday through Friday, 8:30 to 4:30, excluding Federal holidays.

FOR FURTHER INFORMATION CONTACT: Kristin Hall at (206) 553–6357, *hall.kristin@epa.gov*, or the above EPA, Region 10 address.

SUPPLEMENTARY INFORMATION: Throughout this document wherever “we,” “us,” or “our” is used, it is intended to refer to the EPA. Information is organized as follows:

Table of Contents

- I. Background
- II. Final Action
- III. Statutory and Executive Order Reviews

I. Background

On July 1, 1987, the EPA promulgated National Ambient Air Quality Standards (NAAQS) for particulate matter with a nominal aerodynamic diameter less than or equal to 10 micrometers (PM₁₀) (52 FR 24634). The EPA established a 24-hour standard of 150 µg/m³ and an annual standard of 50 µg/m³, expressed as an annual arithmetic mean. The EPA also promulgated secondary PM₁₀ standards that were identical to the primary standards. In a rulemaking action dated October 17, 2006, the EPA retained the 24-hour PM₁₀ standard but revoked the annual PM₁₀ standard (71 FR 61144, effective December 18, 2006).

On August 7, 1987, the EPA designated the Sandpoint area as a PM₁₀ nonattainment area due to measured violations of the 24-hour PM₁₀ standard (52 FR 29383). The notice announcing the designation upon enactment of the 1990 CAA Amendments was published on March 15, 1991 (56 FR 11101). On November 6, 1991, the Sandpoint nonattainment area (Sandpoint NAA) was subsequently classified as moderate under sections 107(d)(4)(B) and 188(a) of the CAA (56 FR 56694).

After the Sandpoint NAA was designated nonattainment for PM₁₀, the State worked with the communities of Sandpoint, Kootenai, and Ponderay to develop a plan to bring the area into attainment no later than December 31, 1996. The State submitted the plan to the EPA on August 16, 1996, as a moderate PM₁₀ State Implementation Plan (SIP) under section 189(a) of the CAA. The moderate PM₁₀ SIP included a comprehensive residential wood combustion program, controls on fugitive road dust and emission limitations on industrial sources. The EPA took final action to approve the Sandpoint moderate PM₁₀ SIP on June 26, 2002 (67 FR 43006). Subsequently on June 22, 2010, the EPA determined that the Sandpoint NAA attained the PM₁₀ NAAQS (75 FR 35302).

On December 14, 2011, the State submitted to the EPA the Sandpoint PM₁₀ Limited Maintenance Plan (LMP) and requested that the EPA redesignate the Sandpoint NAA to attainment for the PM₁₀ NAAQS. The State also requested to revise control measures in the Sandpoint PM₁₀ SIP. On February 1, 2013, the EPA published a Notice of Proposed Rulemaking (NPR) addressing the State's December 14, 2011 submittal (78 FR 7340). In the NPR, the EPA proposed to approve in part and disapprove in part the Sandpoint NAA LMP submitted by the State and to approve the State's request to redesignate this area to attainment for

the PM₁₀ NAAQS. A detailed description of the proposed partial approval and partial disapproval can be found in the NPR. The EPA provided a 30-day review and comment period on the NPR, published on February 1, 2013 (78 FR 7340). The public comment period for the EPA's NPR closed on March 4, 2013. The EPA received no comments on the proposed action.

II. Final Action

The EPA is approving in part and disapproving in part the Sandpoint NAA LMP submitted by the State on December 14, 2011, and approving the State's request to redesignate this area to attainment for the PM₁₀ NAAQS. The Sandpoint NAA LMP submittal included a request to approve revisions to the control measures included in the PM₁₀ attainment SIP for the Sandpoint NAA. The EPA is approving the revised Sandpoint City Ordinance 965 for control of residential burning because it strengthens the SIP. The EPA is also approving the State's request to remove the Louisiana-Pacific Corporation—Sandpoint operating permit control measure from the SIP because the facility has ceased operations and has been dismantled. However, the EPA is disapproving the State's request to remove the operating permits for two other sources because these sources are still in operation and the State did not provide a demonstration that removal of the two permits would not interfere with attainment or maintenance of the NAAQS. In addition, the removal of controls that were relied on to demonstrate attainment would disqualify the Sandpoint NAA for LMP eligibility and require that the State submit a full maintenance plan. Because the State submitted the Sandpoint NAA LMP intending to qualify for the LMP option, and did not submit a full maintenance plan, the EPA is disapproving the separable portion of the submittal that is not consistent with the LMP qualifying criteria. This partial disapproval does not prevent the State from submitting a request for approval of a SIP revision demonstrating that the removal of the two operating permits does not interfere with attainment or maintenance of the NAAQS.

The EPA's partial disapproval will be simultaneously corrected because the EPA is, in this same action, fully approving the Sandpoint NAA LMP with all control measures in place. Therefore, a fully approved LMP is in place and no further submittal is required from the State to address the partial disapproval.

III. Statutory and Executive Order Reviews

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, the EPA's role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a "significant regulatory action" subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);
- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the Clean Air Act; and
- Does not provide the EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994). In addition, this rule does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIP is not approved to apply in Indian country located in the state, and the EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law.

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. The EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by June 3, 2013. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for

the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

List of Subjects

40 CFR Part 52

Environmental protection, Air pollution control, Incorporation by reference, Particulate Matter, and Reporting and recordkeeping requirements.

40 CFR Part 81

Environmental protection, Air pollution control, National parks, Wilderness areas.

Authority: 42 U.S.C. 7401 *et seq.*

Dated: March 18, 2013.

Dennis J. McLerran,

Regional Administrator, Region 10.

40 CFR parts 52 and 81 are amended as follows:

PART 52—[AMENDED]

■ 1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

Subpart N—Idaho

■ 2. Section 52.670 is amended by:

■ a. In paragraph (c) by removing the entry for "City of Sandpoint Ordinance No. 965" and adding in its place the following entry for "City of Sandpoint Chapter 8 Air Quality (4–8–1 through 4–8–14)."

■ b. In paragraph (d) by removing the entry for "Louisiana Pacific Corporation, Sandpoint, Idaho."

■ c. In paragraph (e) by adding an entry to the end of the table.

The additions read as follows:

§ 52.670 Identification of plan.

RIN 2060-AQ98

Protection of Stratospheric Ozone: Adjustments to the Allowance System for Controlling HCFC Production, Import, and Export

AGENCY: Environmental Protection Agency [EPA].

ACTION: Final rule.

SUMMARY: EPA is adjusting the allowance system controlling U.S. consumption and production of hydrochlorofluorocarbons (HCFCs) as a result of a 2010 Court decision vacating a portion of the 2009 final rule titled “Protection of Stratospheric Ozone: Adjustments to the Allowance System for Controlling HCFC Production, Import, and Export.” EPA interprets the Court’s vacatur as applying to the part of the rule that establishes the company-by-company baselines and calendar year allowances for HCFC-22 and HCFC-142b. On August 5, 2011, EPA published an interim final rule allocating allowances for 2011. Today’s action relieves the regulatory ban on production and consumption of these two chemicals following the Court’s vacatur by establishing company-by-company HCFC-22 and HCFC-142b baselines and allocating production and consumption allowances for 2012–2014. **DATES:** This final rule is effective April 3, 2013.

ADDRESSES: EPA has established a docket for this action under Docket ID No. EPA-HQ-OAR-2011-0354. All documents in the docket are listed on the www.regulations.gov Web site. Although listed in the index, some information is not publicly available, e.g., CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either electronically through www.regulations.gov or in hard copy at the Air and Radiation Docket and Information Center, EPA/DC, EPA West, Room 3334, 1301 Constitution Ave. NW., Washington, DC. The Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566-1744, and the telephone number for the Air and Radiation Docket is (202) 566-1742.

FOR FURTHER INFORMATION CONTACT: Luke H. Hall-Jordan by telephone at (202) 343-9591, or by email at hall-jordan.luke@epa.gov, or by mail at U.S. Environmental Protection Agency, Stratospheric Protection Division (6205J), 1200 Pennsylvania Ave. NW., Washington, DC 20460. You may also visit the Web site of EPA’s Stratospheric Protection Division at www.epa.gov/ozone/strathome.html for further information about EPA’s Stratospheric Ozone Protection regulations, the science of ozone layer depletion, and related topics.

SUPPLEMENTARY INFORMATION: *Effective Date.* This rule concerns Clean Air Act (CAA) restrictions on the consumption and production of

hydrochlorofluorocarbon (HCFC)-22 and HCFC-142b during 2012–2014. Section 553(d) of the Administrative Procedure Act (APA), 5 U.S.C. chapter 5, generally provides that rules may not take effect earlier than 30 days after they are published in the **Federal Register**. EPA is issuing this final rule under section 307(d)(1) of the Clean Air Act, which states: “The provisions of section 553 through 557 * * * of Title 5 shall not, except as expressly provided in this section, apply to actions to which this subsection applies.” Thus, section 553(d) of the APA does not apply to this rule. EPA is nevertheless acting consistently with the policies underlying APA section 553(d) in making this rule effective April 3, 2013. APA section 553(d) allows an effective date less than 30 days after publication for any action “that grants or recognizes an exemption or relieves a restriction,” (5 U.S.C. 553(d)(1)). Since today’s action relieves a restriction from the regulatory ban on the production and consumption of HCFC-22 and HCFC-142b in the U.S., EPA is making this action effective immediately upon publication to ensure the availability of these HCFCs for servicing air conditioning and refrigeration equipment.
