

date from July 1, 2013, to July 1, 2014 (78 FR 29652). The Department provides this further extension for institutions in order to provide States with additional time to finalize processes for those institutions to be able to comply with the State authorization provisions in § 600.9(a) and (b). Those provisions apply to an institution separately with respect to each State in which the institution has a main or additional location offering at least 50 percent of an eligible educational program.

In order for an institution that cannot meet the State authorization requirements to receive an extension until July 1, 2015, to implement § 600.9(a) and (b), the institution must obtain from the State an explanation, such as information on timeline and action steps to ensure compliance, of how an additional one-year extension will permit the State to finalize its procedures so that the institution is in compliance with amended § 600.9. The explanation must be provided to Department staff upon request.

## ENVIRONMENTAL PROTECTION AGENCY

### 40 CFR Part 52

[EPA–R10–OAR–2014–0018, FRL–9912–55–Region 10]

### Approval and Promulgation of Implementation Plans; Oregon: Infrastructure Requirements for the 2008 Lead National Ambient Air Quality Standards

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Final rule.

**SUMMARY:** The Environmental Protection Agency (EPA) is approving the portion of the December 27, 2013, State Implementation Plan (SIP) submittal from Oregon relating to the infrastructure requirements of the Clean Air Act (CAA) for the National Ambient Air Quality Standards (NAAQS) promulgated for lead (Pb) on October 15, 2008. The CAA requires that each state, after a new or revised NAAQS is promulgated, review their SIP to ensure that it meets the infrastructure requirements necessary to implement the new or revised NAAQS. The EPA finds that the Oregon SIP meets the CAA infrastructure requirements for the 2008 Pb NAAQS.

**DATES:** This final rule is effective on July 24, 2014.

**ADDRESSES:** The EPA has established a docket for this action under Docket Identification No. EPA–R10–OAR–2014–0018. All documents in the docket are listed on the <http://www.regulations.gov> Web site. - II. Final Action
- III. Statutory and Executive Order Reviews

#### I. Background

Section 110 of the CAA specifies the general requirements for states to submit SIPs to implement, maintain, and enforce the NAAQS and the EPA's actions regarding approval of those SIPs. On December 27, 2013, Oregon submitted a SIP revision to the EPA demonstrating that the SIP meets the infrastructure requirements of the CAA for the 2008 Pb NAAQS, 2010 nitrogen dioxide NAAQS, and 2010 sulfur dioxide NAAQS. On April 17, 2014, we proposed approval of the portion of Oregon's December 27, 2013, submittal relating to the 2008 Pb NAAQS (79 FR 21679). An explanation of the CAA requirements and implementing regulations that are met by this SIP revision, a detailed explanation of the revision, and the EPA's reasons for the proposed action were provided in the notice of proposed rulemaking on April 17, 2014, and will not be restated here. We note that we intend to address the remainder of the December 27, 2013, submittal, relating to the infrastructure requirements of the 2010 nitrogen dioxide NAAQS and 2010 sulfur dioxide NAAQS, in a separate action (79 FR 21679). The public comment period for our proposed action ended on May 19, 2014, and we received no comments.

#### II. Final Action

The EPA is approving the portion of the December 27, 2013, submittal from Oregon relating to the infrastructure requirements of the 2008 Pb NAAQS. Specifically, we are approving the submitted revision to OAR 340–202–0130 “Ambient Air Quality Standard for Lead” and the addition of OAR 340–202–0020 “Applicability.” We find that the Oregon SIP meets the following CAA section 110(a)(2) infrastructure elements for the 2008 Pb NAAQS: (A),

(B), (C), (D)(i)(II), (D)(ii), (E), (F), (G), (H), (J), (K), (L), and (M).

As described in detail in our proposal on April 17, 2014 (79 FR 21679), we are not approving the submitted revision to OAR 340–200–0040 “State of Oregon Clean Air Act Implementation Plan.” In addition, we are taking no action on the submitted revisions to OAR 340–200–0020 “General Air Quality Definitions, Table 1—Significant Air Quality Impact,” OAR 340–202–0070 “Sulfur Dioxide,” and OAR 340–202–0100 “Nitrogen Dioxide” because these revisions are outside the scope of the 2008 Pb infrastructure SIP. We intend to address these revisions in a separate action. This action is being taken under section 110 of the CAA.

**III. Statutory and Executive Order Reviews**

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the CAA and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, the EPA’s role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a “significant regulatory action” subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described

in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);

- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because this action does not involve technical standards; and does not provide the EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, this rule does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIP is not approved to apply in Indian country located in the State, and the EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law.

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. The EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a

“major rule” as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by August 25, 2014. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2)).
