

accordance with requirements of 1 CFR 51.5, the EPA is finalizing the incorporation by reference of the PCAPCD and VCAPCD rules described in the amendments to 40 CFR 52 set forth below. The EPA has made, and will continue to make, these documents available electronically through www.regulations.gov and in hard copy at the appropriate EPA office (see the **ADDRESSES** section of this preamble for more information).

IV. Statutory and Executive Order Reviews

Under the Clean Air Act, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA's role is to approve State choices, provided that they meet the criteria of the Clean Air Act. Accordingly, this action merely approves State law as meeting Federal requirements and does not impose additional requirements beyond those imposed by State law. For that reason, this action:

- Is not a "significant regulatory action" subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);
- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the Clean Air Act; and
- Does not provide EPA with the discretionary authority to address

disproportionate human health or environmental effects with practical, appropriate, and legally permissible methods under Executive Order 12898 (59 FR 7629, February 16, 1994).

The SIP is not approved to apply on any Indian reservation land or in any other area where EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications and will not impose substantial direct costs on tribal governments or preempt tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by May 26, 2015. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. Parties with objections to this direct final rule are encouraged to file a comment in response to the parallel notice of proposed rulemaking for this action published in the Proposed Rules section of today's **Federal Register**, rather than file an immediate petition for judicial review of this direct final rule, so that EPA can withdraw this direct final rule and address the comment in the proposed rulemaking. This action may not be challenged later in proceedings to enforce its requirements (see section 307(b)(2)).

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Incorporation by reference, Intergovernmental relations, Ozone, Reporting and recordkeeping

requirements, Volatile organic compounds.

Dated: February 27, 2015.

Jared Blumenfeld,

Regional Administrator, Region IX.

Part 52, Chapter I, Title 40 of the Code of Federal Regulations is amended as follows:

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

- 1. The authority citation for Part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

Subpart F—California

- 2. Section 52.220 is amended by adding paragraphs (c)(441)(i)(B)(3) and (c)(441)(i)(C)(2) to read as follows:

§ 52.220 Identification of plan.

* * * * *

(c) * * *
(441) * * *
(i) * * *
(B) * * *

(3) Rule 249, "Surface Coating of Plastic Parts and Products," adopted on August 8, 2013.

(C) * * *

(2) Metalworking Fluids and Direct-Contact Lubricants," adopted on November 12, 2013.

* * * * *

[FR Doc. 2015-06858 Filed 3-26-15; 8:45 am]

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA-R06-OAR-2013-0804; FRL-9925-13-Region 6]

Approval and Promulgation of Implementation Plans; Texas; Reasonably Available Control Technology for the 1997 8-Hour Ozone National Ambient Air Quality Standard

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is finalizing its proposal to approve revisions to the Texas State Implementation Plan (SIP) for the Houston/Galveston/Brazoria (HGB) and Dallas Fort Worth (DFW) 1997 8-Hour ozone nonattainment areas. The HGB area consists of Brazoria, Chambers, Fort Bend, Galveston, Harris, Liberty, Montgomery and Waller counties. The DFW area consists of Collin, Dallas,

Denton, Ellis, Johnson, Kaufman, Parker, Rockwall, and Tarrant counties. Specifically, we are approving portions of multiple revisions to the Texas SIP submitted by the Texas Commission on Environmental Quality (TCEQ) as meeting Reasonably Available Control Technology (RACT) requirements. The RACT requirements apply to sources of Volatile Organic Compounds (VOC) and Oxides of Nitrogen (NO_x) in these areas. This action is in accordance with the federal Clean Air Act (the Act, CAA).

DATES: This rule will be effective on April 27, 2015.

ADDRESSES: The EPA has established a docket for this action under Docket ID No. EPA-R06-OAR-2013-0804. All documents in the docket are listed on the www.regulations.gov Web site. Although listed in the index, some information is not publicly available, e.g., Confidential Business Information or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either electronically through www.regulations.gov or in hard copy at the Air Planning Section (6PD-L), Environmental Protection Agency, 1445 Ross Avenue, Suite 700, Dallas, Texas 75202-2733. The file will be made available by appointment for public inspection in the Region 6 FOIA Review Room between the hours of 8:30 a.m. and 4:30 p.m. weekdays except for legal holidays.

FOR FURTHER INFORMATION CONTACT: Mr. Alan Shar (6PD-L), telephone (214) 665-2164, email shar.alan@epa.gov. To schedule an appointment contact Alan Shar.

SUPPLEMENTARY INFORMATION:

Throughout this document “we,” “us,” and “our” refer to EPA.

Outline

- I. Background
- II. Public Comments
- III. Submittals
- IV. Negative Declarations
- V. Final Actions
- VI. Incorporation by Reference
- VII. Statutory and Executive Order Reviews

I. Background

On January 21, 2014 (80 FR 2846) we proposed to approve revisions to the Texas SIP that the TCEQ submitted to EPA in multiple RACT-related rule revisions dated December 6, 2013, January 17, 2012, June 13, 2007, as well as the RACT analysis portions of attainment demonstration plans of

January 17, 2012, April 6, 2010, and June 13, 2007 for the DFW and HGB areas. Details of these submittals and their evaluation were explained in our proposal, and its corresponding Technical Supporting Document. A summary of these submittals is described in section III.

On August 4, 2014 (79 FR 45105) we approved RACT for the Offset Lithographic Printing Operations in the DFW (Serious) and HGB (Severe) areas. See docket No. EPA-R06-OAR-2010-0332 at www.regulations.gov. Also, on September 9, 2014 (79 FR 53299) we approved revisions to 30 TAC Chapter 115 for control of VOC emissions for storage tanks in the DFW (Serious) and HGB (Severe) areas. See docket No. EPA-R06-OAR-2012-0096 at www.regulations.gov.

II. Public Comments

The public comment period for the January 21, 2015 (80 FR 2846) proposal expired on February 20, 2015, and we did not receive any comments on the proposed actions during this period. Therefore, we are approving the January 21, 2015 (80 FR 2846) proposal without any changes into the Texas SIP.

III. Submittals

The December 6, 2013 submittal concerned rule revisions to 30 TAC, Chapter 115 Control of Air Pollution from Volatile Organic Compounds for solvent using processes and surface coating application systems. We are approving all of this submittal into the Texas SIP.

The January 17, 2012 submittal concerned rule revisions to 30 TAC, Chapter 115 Control of Air Pollution from Volatile Organic Compounds intended to implement RACT for both HGB and DFW areas. The submittal will limit VOC content of coatings and solvents used in Flexible Package Printing, Industrial Cleaning Solvents, Large Appliance Coatings, Metal Furniture Coatings, Paper, Film, and Foil Coatings, Miscellaneous Industrial Adhesives, Automobile and Light-Duty Truck Assembly Coatings, and Miscellaneous Metal and Plastic Parts Coatings operations. We are approving all of this submittal into the Texas SIP.

Another submittal also dated January 17, 2012 contained a corresponding analysis to demonstrate RACT is in place for multiple source categories in the HGB area. We are approving that RACT is in place for the source categories listed in the paragraph above, and we are approving the Flexographic and Rotogravure Printing sector for the HGB area of the RACT-related rule

revisions which had not been previously approved.

A third SIP submittal dated January 17, 2012 contained RACT analysis for the DFW area. As a result of this submittal, and consistent with section 182(c) of the Act, the VOC or NO_x major source threshold in the DFW area is lowered to 50 Tons Per Year (TPY) from 100 TPY for RACT purposes under the 1997 8-Hour ozone standard. See EPA-R06-OAR-2012-0098 at www.regulations.gov. We are approving the RACT analysis portion of this submittal.

The April 6, 2010 attainment demonstration submittal, among other things, concerned revisions to 30 TAC, Chapter 115 Control of Air Pollution from Volatile Organic Compounds for control of ozone pollution in the HGB area. Appendix D of this attainment demonstration plan was titled “Reasonably Available Control Technology Analysis,” and included source categories affected by the newly EPA-issued Control Techniques Guidelines (CTGs), and NO_x emissions sources. We are approving the RACT analysis portion of this submittal.

The June 13, 2007 attainment demonstration submittal concerned revisions to 30 TAC, Chapter 115 Control of Air Pollution from Volatile Organic Compounds. The June 13, 2007 submittal included an analysis intended to demonstrate RACT was being implemented in the HGB area as required by the CAA (Appendix B of the submittal). We are approving the RACT analysis portion of this submittal.

The submittals concerning these nonattainment areas are available at www.regulations.gov, docket ID No. EPA-R06-OAR-2013-0804 under the “supporting and related materials.”

We are approving the above-mentioned revisions, as well as confirming the RACT finding for revisions previously approved for Texas, into the Texas SIP. We are approving Texas’ RACT analysis as meeting the RACT requirements for all affected VOC and NO_x sources for the DFW and HGB areas for the 1997 8-Hour ozone standard.

IV. Negative Declarations

The January 21, 2015 (80 FR 2846) proposal included a list of source categories that do not operate within these nonattainment areas.

For the DFW area, Texas declared that there were no fiberglass boat manufacturing materials, ship building and ship repair coating, leather tanning and finishing, surface coating for flat wood paneling, vegetable oil manufacturing, plywood veneer dryers,

rubber tire manufacturing, and batch processes operations. We are approving the VOC RACT negative declaration for these operations in the DFW area.

For the HGB area, on April 15, 2014 (79 FR 21144), we approved the VOC RACT negative declarations for fiberglass boat manufacturing materials, leather tanning and finishing, surface coating for flat wood paneling, letterpress printing, automobile and light-duty truck assembly coating, rubber tire manufacturing, and vegetable oil manufacturing operations. See 40 CFR 52.2270(e).

However, if a major source of these categories locates in these nonattainment areas in future, then TCEQ will need to take appropriate regulatory measures.

V. Final Actions

We are approving rule revisions to sections 30 TAC chapter 115.422, 115.427, 115.429, 115.430, 115.432, 115.433, 115.435, 115.436, and 115.439 implementing controls on the following source categories: Flat Wood Paneling Coatings, Flexible Packaging Printing Materials, Industrial Cleaning Solvents, Offset Lithographic and Letterpress Printing, Large Appliance Coatings, Metal Furniture Coatings, Paper, Film, and Foil Coatings, Auto and Light-Duty Truck Assembly Coatings, Fiberglass Boat Manufacturing Materials, Miscellaneous Industrial Adhesives, and Miscellaneous Metal and Plastic Parts Coatings.

We are approving new sections 30 TAC chapter 115.431, 115.450, 115.451, 115.453–115.455, 115.458–115.461, 115.463–115.465, 115.468–115.471, 115.473–115.475, 115.478, and 115.479 implementing controls on the source categories listed above.

We are approving repeal of section 30 TAC chapter 115.437.

We are approving to find that for VOC CTG categories identified above, Texas has RACT-level controls in place for the HGB and DFW areas under the 1997 8-Hour ozone standard.

We are approving to find that Texas has RACT-level controls in place for the Flexographic and Rotogravure Printing operations for the HGB area.

We are approving the negative declarations as explained in section IV of this action.

We are approving NOx RACT for the DFW area under the 1997 8-Hour ozone standard.

In consideration of the above rule revisions, as well as the rule revisions previously approved and the rules in 30 TAC Chapters 115 and 117, we are approving that, Texas is implementing RACT for all affected VOC and NOx

sources in the HGB and DFW areas under the 1997 8-Hour ozone standard.

We are approving these revisions in accordance with sections 110, 182, and 183 of the federal CAA.

The EPA had previously approved RACT for all affected NOx sources for the HGB area under the 1997 8-Hour ozone standard.

The EPA had previously approved RACT for all affected VOC and NOx sources into Texas' SIP under the 1-Hour ozone standard.

VI. Incorporation by Reference

In this rule, we are finalizing regulatory text that includes incorporation by reference. In accordance with the requirements of 1 CFR 51.4, we are finalizing the incorporation by reference of the revisions to the Texas regulations as described in the Final Action section above. We have made, and will continue to make, these documents generally available electronically through www.regulation.gov, Docket ID. No. EPA-R06-OAR-2013-0804.

VII. Statutory and Executive Order Reviews

Under the Clean Air Act, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. If a portion of the plan revision meets all the applicable requirements of this chapter and Federal regulations, the Administrator may approve the plan revision in part. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA's role is to approve state choices that meet the criteria of the Act, and to disapprove state choices that do not meet the criteria of the Act. Accordingly, this final action approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this final action:

- Is not a "significant regulatory action" subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described

in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);

- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the Clean Air Act;
- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994); and
- Does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIP is not approved to apply in Indian country located in the state, and EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law.

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by May 26, 2015. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

Authority: 42 U.S.C. 7401 *et seq.*

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Hydrocarbons, Incorporation by reference, Intergovernmental relations, Reporting and recordkeeping requirements, Volatile organic compounds.

Dated: March 16, 2015.

Samuel Coleman,

Acting Regional Administrator, Region 6.

Part 52, chapter I, title 40 of the Code of Federal Regulations is amended as follows:

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

■ 1. The authority citation for Part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

Subpart SS—Texas

■ 2. In § 52.2270:

■ a. In paragraph (c), the table is amended under Chapter 115 (Reg 5) as follows:

■ i. Revising the entries for Sections 115.422, 115.427, and 115.429 under “Subchapter E—Solvent Using—Process,” “Division 2: Surface Coating Processes”.

■ ii. Adding new entry for Section 115.431 in numerical order under “Subchapter E—Solvent Using—

Process,” “Division 3: Flexographic and Rotogravure Printing”.

■ iii. Removing the entry for Section 115.437 under “Subchapter E—Solvent Using—Process,” “Division 3: Flexographic and Rotogravure Printing”.

■ iv. Revising the entries for Sections 115.430, 115.432, 115.433, 115.435, 115.436, and 115.439 under “Subchapter E—Solvent Using—Process,” “Division 3: Flexographic and Rotogravure Printing”.

■ v. Adding new entries for Sections 115.450, 115.451, 115.453, 115.454, 115.455, 115.458, 115.459 under “Subchapter E—Solvent Using—Process,” “Division 5: Control Requirements for Surface Coating Processes”.

■ vi. Adding new entries for Sections 115.460, 115.461, 115.463, 115.464,

115.465, 115.468, and 115.469, under “Subchapter E—Solvent Using—Process,” “Division 6: Industrial Cleaning Solvents”.

■ vii. Adding new entries for Sections 115.470, 115.471, 115.473, 115.474, 115.475, 115.478, and 115.479 under “Subchapter E—Solvent Using—Process,” “Division 7: Miscellaneous Industrial Adhesives”.

■ b. In paragraph (e), the table titled “EPA approved nonregulatory provisions and quasi-regulatory measures in the Texas SIP” is amended by adding four new entries at the end.

The revisions and additions read as follows:

§ 52.2270 Identification of plan.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY**40 CFR Part 180**

[EPA-HQ-OPP-2014-0209; FRL-9924-60]

Deltamethrin; Pesticide Tolerances**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Final rule.

SUMMARY: This regulation establishes tolerances for residues of the insecticide deltamethrin in or on all food and feed commodities from use of deltamethrin as a wide-area mosquito adulticide. Bayer CropScience requested these tolerances under the Federal Food, Drug, and Cosmetic Act (FFDCA).

DATES: This regulation is effective March 27, 2015. Objections and requests for hearings must be received on or before May 26, 2015, and must be filed in accordance with the instructions provided in 40 CFR part 178 (see also Unit I.C. of the **SUPPLEMENTARY INFORMATION**).

ADDRESSES: The docket for this action, identified by docket identification (ID) number EPA-HQ-OPP-2014-0209, is available at <http://www.regulations.gov> or at the Office of Pesticide Programs Regulatory Public Docket (OPP Docket) in the Environmental Protection Agency Docket Center (EPA/DC), West William Jefferson Clinton Bldg., Rm. 3334, 1301 Constitution Ave. NW., Washington, DC 20460-0001. The Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566-1744, and the telephone number for the OPP Docket is (703) 305-5805. Please review the visitor instructions and additional information about the docket available at <http://www.epa.gov/dockets>.

FOR FURTHER INFORMATION CONTACT: Susan Lewis, Registration Division (7505P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460-0001; main telephone number: (703) 305-7090; email address: RDfRNNotices@epa.gov.

SUPPLEMENTARY INFORMATION:**I. General Information***A. Does this action apply to me?*

You may be potentially affected by this action if you are an agricultural producer, food manufacturer, or

pesticide manufacturer. The following list of North American Industrial Classification System (NAICS) codes is not intended to be exhaustive, but rather provides a guide to help readers determine whether this document applies to them. Potentially affected entities may include:

- Crop production (NAICS code 111).
- Animal production (NAICS code 112).
- Food manufacturing (NAICS code 311).
- Pesticide manufacturing (NAICS code 32532).

B. How can I get electronic access to other related information?

You may access a frequently updated electronic version of EPA's tolerance regulations at 40 CFR part 180 through the Government Printing Office's e-CFR site at http://www.ecfr.gov/cgi-bin/text-id?&c=ecfr&tpl=/ecfrbrowse/Title40/40tab_02.tpl.

C. How can I file an objection or hearing request?

Under FFDCA section 408(g), 21 U.S.C. 346a, any person may file an objection to any aspect of this regulation and may also request a hearing on those objections. You must file your objection or request a hearing on this regulation in accordance with the instructions provided in 40 CFR part 178. To ensure proper receipt by EPA, you must identify docket ID number EPA-HQ-OPP-2014-0209 in the subject line on the first page of your submission. All objections and requests for a hearing must be in writing, and must be received by the Hearing Clerk on or before May 26, 2015. Addresses for mail and hand delivery of objections and hearing requests are provided in 40 CFR 178.25(b).

In addition to filing an objection or hearing request with the Hearing Clerk as described in 40 CFR part 178, please submit a copy of the filing (excluding any Confidential Business Information (CBI)) for inclusion in the public docket. Information not marked confidential pursuant to 40 CFR part 2 may be disclosed publicly by EPA without prior notice. Submit the non-CBI copy of your objection or hearing request, identified by docket ID number EPA-HQ-OPP-2014-0209, by one of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the online instructions for submitting comments. Do not submit electronically any information you consider to be CBI or other information whose disclosure is restricted by statute.

- *Mail:* OPP Docket, Environmental Protection Agency Docket Center (EPA/DC), (28221T), 1200 Pennsylvania Ave. NW., Washington, DC 20460-0001.

- *Hand Delivery:* To make special arrangements for hand delivery or delivery of boxed information, please follow the instructions at <http://www.epa.gov/dockets/contacts.html>.

Additional instructions on commenting or visiting the docket, along with more information about dockets generally, is available at <http://www.epa.gov/dockets>.

II. Summary of Petitioned-For Tolerance

In the **Federal Register** of January 28, 2015 (80 FR 4527) (FRL-9921-60), EPA issued a document pursuant to FFDCA section 408(d)(3), 21 U.S.C. 346a(d)(3), announcing the filing of a pesticide petition (PP [3F8210]) by Bayer CropScience, 2 T.W. Alexander Dr., Research Triangle Park, NC 27709. The petition requested that 40 CFR 180.435 be amended by establishing a tolerance for residues of the insecticide deltamethrin, (1R,3R)-R-cyano(3-phenoxyphenyl)methyl 3-(2,2-dibromoethenyl)-2,2-dimethylcyclopropanecarboxylate, in or on food and feed commodities at 0.05 parts per million (ppm) from use as a wide-area mosquito adulticide. That document referenced a summary of the petition prepared by Bayer CropScience, the registrant, which is available in the docket, <http://www.regulations.gov>. One comment was received on the notice of filing. EPA's response to the comment is discussed in Unit IV.C.

III. Aggregate Risk Assessment and Determination of Safety

Section 408(b)(2)(A)(i) of FFDCA allows EPA to establish a tolerance (the legal limit for a pesticide chemical residue in or on a food) only if EPA determines that the tolerance is "safe." Section 408(b)(2)(A)(ii) of FFDCA defines "safe" to mean that "there is a reasonable certainty that no harm will result from aggregate exposure to the pesticide chemical residue, including all anticipated dietary exposures and all other exposures for which there is reliable information." This includes exposure through drinking water and in residential settings, but does not include occupational exposure. Section 408(b)(2)(C) of FFDCA requires EPA to give special consideration to exposure of infants and children to the pesticide chemical residue in establishing a tolerance and to "ensure that there is a reasonable certainty that no harm will result to infants and children from
