**CHAPTER 2—SPECIAL CLASSIFICATION RELATING TO
PRODUCT DEVELOPMENT AND TESTING**Product
Development and
Testing Act of
2000.**SEC. 1431. SHORT TITLE.**

This chapter may be cited as the “Product Development and Testing Act of 2000”.

SEC. 1432. FINDINGS; PURPOSE.

(a) **FINDINGS.**—The Congress finds the following:

(1)(A) A substantial amount of development and testing occurs in the United States incident to the introduction and manufacture of new products for both domestic consumption and export overseas.

(B) Testing also occurs with respect to merchandise that has already been introduced into commerce to insure that it continues to meet specifications and performs as designed.

(2) The development and testing that occurs in the United States incident to the introduction and manufacture of new products, and with respect to products which have already been introduced into commerce, represents a significant industrial activity employing highly-skilled workers in the United States.

(3)(A) Under the current laws affecting the importation of merchandise, such as the provisions of part I of title IV of the Tariff Act of 1930 (19 U.S.C. 1401 et seq.), goods commonly referred to as “prototypes”, used for product development testing and product evaluation purposes, are subject to customs duty upon their importation into the United States unless the prototypes qualify for duty-free treatment under special trade programs or unless the prototypes are entered under a temporary importation bond.

(B) In addition, the United States Customs Service has determined that the value of prototypes is to be included in the value of production articles if the prototypes are the result of the same design and development effort as the articles.

(4)(A) Assessing duty on prototypes twice, once when the prototypes are imported and a second time thereafter as part of the cost of imported production merchandise, discourages development and testing in the United States, and thus encourages development and testing to occur overseas, since, in that case, duty will only be assessed once, upon the importation of production merchandise.

(B) Assessing duty on these prototypes twice unnecessarily inflates the cost to businesses, thus reducing their competitiveness.

(5) Current methods for avoiding the excessive assessment of customs duties on the importation of prototypes, including the use of temporary importation entries and obtaining drawback, are unwieldy, ineffective, and difficult for both importers and the United States Customs Service to administer.

(b) **PURPOSE.**—The purpose of this chapter is to promote product development and testing in the United States by permitting the importation of prototypes on a duty-free basis.

SEC. 1433. AMENDMENTS TO HARMONIZED TARIFF SCHEDULE OF THE UNITED STATES.

(a) **HEADING.**—Subchapter XVII of Chapter 98 is amended by inserting in numerical sequence the following new heading:

9817.85.01	Prototypes to be used exclusively for development, testing, product evaluation, or quality control purposes	Free		The rate applicable in the absence of this heading
------------	-------------------------------------------------------------------------------------------------------------------	------	--	----------------------------------------------------

(b) **U.S. NOTE.**—The U.S. Notes to subchapter XVII of chapter 98 are amended by adding at the end the following:

- “6. The following provisions apply to heading 9817.85.01:
 - “(a) For purposes of this subchapter, including heading 9817.85.01, the term ‘prototypes’ means originals or models of articles that—
 - “(i) are either in the preproduction, production, or postproduction stage and are to be used exclusively for development, testing, product evaluation, or quality control purposes; and
 - “(ii) in the case of originals or models of articles that are either in the production or postproduction stage, are associated with a design change from current production (including a refinement, advancement, improvement, development, or quality control in either the product itself or the means for producing the product). For purposes of clause (i), automobile racing for purse, prize, or commercial competition shall not be considered to be “development, testing, product evaluation, or quality control.”
 - “(b)(i) Prototypes may be imported only in limited noncommercial quantities in accordance with industry practice.
 - “(ii) Except as provided for by the Secretary of the Treasury, prototypes or parts of prototypes may not be sold after importation into the United States or be incorporated into other products that are sold.
 - “(c) Articles subject to quantitative restrictions, antidumping orders, or countervailing duty orders may not be classified as prototypes under this note. Articles subject to licensing requirements, or which must comply with laws, rules, or regulations administered by agencies other than the United States Customs Service before being imported, may be classified as prototypes if they comply with all applicable provisions of law and otherwise meet the definition of ‘prototypes’ under paragraph (a).”

SEC. 1434. REGULATIONS RELATING TO ENTRY PROCEDURES AND SALES OF PROTOTYPES.

(a) **IDENTIFICATION OF PROTOTYPES.**—The Secretary of the Treasury shall promulgate regulations regarding the identification of prototypes at the time of importation into the United States in accordance with the provisions of this chapter and the amendments made by this chapter.

Deadline.

(b) **SALES OF PROTOTYPES.**—Not later than 10 months after the date of the enactment of this Act, the Secretary of the Treasury shall promulgate final regulations regarding the sale of prototypes entered under heading 9817.85.01 of the Harmonized Tariff Schedule of the United States as scrap, or waste, or for recycling, if all duties are tendered for sales of the prototypes, including prototypes and parts of prototypes incorporated into other products, as scrap, waste, or recycled materials, at the rate of duty in effect

for such scrap, waste, or recycled materials at the time of importation of the prototypes.

SEC. 1435. EFFECTIVE DATE.

This chapter, and the amendments made by this chapter, shall apply with respect to—

(1) an entry of a prototype under heading 9817.85.01, as added by section 1433(a), on or after the date of the enactment of this Act; and

(2) an entry of a prototype (as defined in U.S. Note 6(a) to subchapter XVII of chapter 98, as added by section 1433(b)) under heading 9813.00.30 for which liquidation has not become final as of the date of the enactment of this Act.

CHAPTER 3—PROHIBITION ON IMPORTATION OF PRODUCTS MADE WITH DOG OR CAT FUR

SEC. 1441. SHORT TITLE.

This chapter may be cited as the “Dog and Cat Protection Act of 2000”.

SEC. 1442. FINDINGS AND PURPOSES.

(a) **FINDINGS.**—Congress makes the following findings:

(1) An estimated 2,000,000 dogs and cats are slaughtered and sold annually as part of the international fur trade. Internationally, dog and cat fur is used in a wide variety of products, including fur coats and jackets, fur trimmed garments, hats, gloves, decorative accessories, stuffed animals, and other toys.

(2) The United States represents one of the largest markets for the sale of fur and fur products in the world. Market demand for fur products in the United States has led to the introduction of dog and cat fur products into United States commerce, frequently based on deceptive or fraudulent labeling of the products to disguise the true nature of the fur and mislead United States wholesalers, retailers, and consumers.

(3) Dog and cat fur, when dyed, is not easily distinguishable to persons who are not experts from other furs such as fox, rabbit, coyote, wolf, and mink, and synthetic materials made to resemble real fur. Dog and cat fur is generally less expensive than other types of fur and may be used as a substitute for more expensive types of furs, which provides an incentive to engage in unfair or fraudulent trade practices in the importation, exportation, distribution, or sale of fur products, including deceptive labeling and other practices designed to disguise the true contents or origin of the product.

(4) Forensic texts have documented that dog and cat fur products are being imported into the United States subject to deceptive labels or other practices designed to conceal the use of dog or cat fur in the production of wearing apparel, toys, and other products.

(5) Publicly available evidence reflects ongoing significant use of dogs and cats bred expressly for their fur by foreign fur producers for manufacture into wearing apparel, toys, and other products that have been introduced into United States commerce. The evidence indicates that foreign fur producers also rely on the use of stray dogs and cats and stolen pets for the manufacture of fur products destined for the world and United States markets.

Dog and Cat
Protection Act of
2000.

19 USC 1654
note.

19 USC 1308
note.

(6) The methods of housing, transporting, and slaughtering dogs and cats for fur production are generally unregulated and inhumane.

(7) The trade of dog and cat fur products is ethically and aesthetically abhorrent to United States citizens. Consumers in the United States have a right to know if products offered for sale contain dog or cat fur and to ensure that they are not unwitting participants in this gruesome trade.

(8) Persons who engage in the sale of dog or cat fur products, including the fraudulent trade practices identified above, gain an unfair competitive advantage over persons who engage in legitimate trade in apparel, toys, and other products, and derive an unfair benefit from consumers who buy their products.

(9) The imposition of a ban on the sale, manufacture, offer for sale, transportation, and distribution of dog and cat fur products, regardless of their source, is consistent with the international obligations of the United States because it applies equally to domestic and foreign producers and avoids any discrimination among foreign sources of competing products. Such a ban is also consistent with provisions of international agreements to which the United States is a party that expressly allow for measures designed to protect the health and welfare of animals and to enjoin the use of deceptive trade practices in international or domestic commerce.

(b) PURPOSES.—The purposes of this chapter are to—

(1) prohibit imports, exports, sale, manufacture, offer for sale, transportation, and distribution in the United States of dog and cat fur products, in order to ensure that United States market demand does not provide an incentive to slaughter dogs or cats for their fur;

(2) require accurate labeling of fur species so that consumers in the United States can make informed choices and ensure that they are not unwitting contributors to this gruesome trade; and

(3) ensure that the customs laws of the United States are not undermined by illicit international traffic in dog and cat fur products.

Use of a laboratory certified by the United States Customs Service to determine the nature of fur contained in an item to which subsection (b) applies is not required to avoid liability under this section but may, in a case in which a person can establish that the goods imported were tested by such a laboratory and that the item was not found to be a dog or cat fur product, prove dispositive in determining whether that person exercised reasonable care for purposes of paragraph (6).

“(5) REWARD.—The designated authority shall pay a reward of not less than \$500 to any person who furnishes information that establishes or leads to a civil penalty assessment, debarment, or forfeiture of property for any violation of this section or any regulation issued under this section.
