

The source law provided that leases of lands of the United States within the naval petroleum reserves in existence before July 1, 1936, except leases that had become part of an approved unit or cooperative plan and agreement, should terminate at the end of their initial 20-year period, and that the lands covered by these leases could then be re-leased by the Secretary of the Navy. All of the leases covered by this provision have terminated as provided therein. Thus the provision for the termination of the leases is executed and the only remaining effect of the source is to authorize the release of the lands formerly covered by the terminated leases. This section is worded accordingly. Reference to the classes of leases that were excepted from the termination is omitted as unnecessary because these leases were, of course, not terminated. They are not affected, since this section refers only to leases that were "terminated by law". The word "conditions" is omitted as included in the word "terms".

##### EFFECTIVE DATE OF 2018 AMENDMENT

Amendment by Pub. L. 115-232 effective Feb. 1, 2019, with provision for the coordination of amendments and special rule for certain redesignations, see section 800 of Pub. L. 115-232, set out as a note preceding section 3001 of this title.

#### § 8730. Disposition of products

(a) In administering the naval petroleum reserves under this chapter, the Secretary shall use, store, or sell the petroleum produced from the naval petroleum reserves and lands covered by joint, unit, or other cooperative plans.

(b)(1) Subject to paragraph (2) and notwithstanding any other provision of law, each sale of the United States share of petroleum shall be made by the Secretary at public sale to the highest qualified bidder, at such time, in such amounts, and after such advertising as the Secretary considers proper and without regard to Federal, State, or local regulations controlling sales or allocation of petroleum products. Each sale of the United States share of petroleum shall be for periods of not more than one year, except that a sale of natural gas may be made for a period of more than one year.

(2) The Secretary may not sell any part of the United States share of petroleum produced from Naval Petroleum Reserves Numbered 2 and 3 at a price less than the current sales price, as estimated by the Secretary, of comparable petroleum in the same area.

(3) For purposes of paragraph (2), the term "petroleum" does not include natural gas liquids.

(c) In no event shall the Secretary permit the award of any contract which would result in any person obtaining control, directly or indirectly, over more than 20 percent of the estimated annual United States share of petroleum produced from Naval Petroleum Reserve Numbered 1.

(d) Each proposal for sale under this title shall provide that the terms of every sale of the United States share of petroleum from the naval

petroleum reserves shall be so structured as to give full and equal opportunity for the acquisition of petroleum by all interested persons, including major and independent oil producers and refiners alike. When the Secretary, in consultation with the Secretary of the Interior, determines that the public interests will be served by the sale of petroleum to small refiners not having their own adequate sources of supply of petroleum, the Secretary is authorized and directed to set aside a portion of the United States share of petroleum produced for sale to such refiners under the provisions of this section for processing or use in such refineries, except that—

(1) none of the production sold to small refiners may be resold in kind;

(2) production must be sold at a cost of not less than the prevailing local market price of comparable petroleum;

(3) the set-aside portion may not exceed 25 percent of the estimated annual United States share of the total production from all producing naval petroleum reserves; and

(4) notwithstanding the provisions of subsection (b), the Secretary may, at his discretion if he deems it to be in the public interest, prorate such petroleum among such refiners for sale, without competition, at not less than the prevailing local market price of comparable petroleum.

(e) Any petroleum produced from the naval petroleum reserves, except such petroleum which is either exchanged in similar quantities for convenience or increased efficiency of transportation with persons or the government of an adjacent foreign state, or which is temporarily exported for convenience or increased efficiency of transportation across parts of an adjacent foreign state and reenters the United States, shall be subject to all of the limitations and licensing requirements of the Export Administration Act of 1979 (50 U.S.C. 4601 et seq.) and, in addition, before any petroleum subject to this section may be exported under the limitations and licensing requirement and penalty and enforcement provisions of the Export Administration Act of 1979, the President must make and publish an express finding that such exports will not diminish the total quality or quantity of petroleum available to the United States and that such exports are in the national interest and are in accord with the Export Administration Act of 1979.

(f) During the period of production or any extension thereof authorized by section 8722(c) of this title, the consultation and approval requirements of section 8731(a)(3) of this title are waived.

(g)(1) Prior to the promulgation of any rules and regulations, plans of development and amendments thereto, and in the entering and making of contracts and operating agreements relating to the development, production, or sale of petroleum in or from the reserves, the Secretary shall consult with and give due consideration to the views of the Attorney General of the United States with respect to matters which may affect competition.

(2) No contract or operating agreement may be made, issued, or executed under this chapter

until at least 15 days after the Secretary notifies the Attorney General of the proposed contract or operating agreement. Such notification shall contain such information as the Attorney General may require in order to advise the Secretary as to whether such contract or operating agreement may create or maintain a situation inconsistent with the antitrust laws. If, within such 15-day period, the Attorney General advises the Secretary that a contract or operating agreement may create or maintain a situation inconsistent with the antitrust laws, then the Secretary may not make, issue, or execute that contract or operating agreement.

(h) Nothing in this chapter shall be deemed to confer on any person immunity from civil or criminal liability, or to create defenses to actions, under the antitrust laws.

(i) In this section, the term “antitrust laws” means—

- (1) the Sherman Act (15 U.S.C. 1 et seq.);
- (2) the Clayton Act (15 U.S.C. 12 et seq.);
- (3) the Federal Trade Commission Act (15 U.S.C. 41 et seq.);
- (4) sections 73 and 74 of the Wilson Tariff Act (15 U.S.C. 8 and 9); and
- (5) sections 2, 3, and 4 of the Act of June 19, 1936 (commonly referred to as the “Robinson-Patman Act”) (15 U.S.C. 13a, 13b, and 21a).

(j) Any pipeline which accepts, conveys, or transports any petroleum produced from Naval Petroleum Reserves Numbered 1 or Numbered 3 shall accept, convey, and transport without discrimination and at reasonable rates any such petroleum as a common carrier insofar as petroleum from such reserves is concerned. Every contract entered into by the Secretary for the sale of any petroleum owned by the United States which is produced from such reserves shall contain provisions implementing the requirements of the preceding sentence if the contractor owns a controlling interest in any pipeline or any company operating any pipeline, or is the operator of any pipeline, which carries any petroleum produced from such naval petroleum reserves. The Secretary may promulgate rules and regulations for the purpose of carrying out the provisions of this section and he, or the Secretary of the Interior where the authority extends to him, may declare forfeit any contract, operating agreement, right-of-way, permit, or easement held by any person violating any such rule or regulation. This section shall not apply to any natural gas common carrier pipeline operated by any person subject to regulation under the Natural Gas Act (15 U.S.C. 717 et seq.) or any public utility subject to regulation by a State or municipal regulatory agency having jurisdiction to regulate the rates and charges for the sale of natural gas to consumers within the State or municipality.

(k)(1) With respect to all or any part of the United States share of petroleum produced from the naval petroleum reserves, the President may direct that the Secretary—

(A) place that petroleum in the Strategic Petroleum Reserve as authorized by sections 151 through 166 of the Energy Policy and Conservation Act (42 U.S.C. 6231–6246); or

(B) exchange, directly or indirectly, that petroleum for other petroleum to be placed in

the Strategic Petroleum Reserve under such terms and conditions and by such methods as the Secretary determines to be appropriate, without regard to otherwise applicable Federal procurement statutes and regulations.

(2) The requirements of section 159 of the Energy Policy and Conservation Act (42 U.S.C. 6239) do not apply to actions taken under this subsection.

(1)(1) Notwithstanding any other provision of this chapter (but subject to paragraph (2)), during any period in which the production of petroleum is authorized from Naval Petroleum Reserves Numbered 1, 2, or 3, the Secretary, at the request of the Secretary of Defense, may provide any portion of the United States share of petroleum so produced to the Department of Defense for its use, exchange, or sale in order to meet petroleum product requirements of the Department of Defense.

(2) Petroleum may be provided to the Department of Defense under paragraph (1) either directly or by such exchange as the Secretary deems appropriate. Appropriate reimbursement reasonably reflecting the fair market value shall be provided by the Secretary of Defense for petroleum provided under this subsection.

(3) Any exchange made pursuant to this subsection may be made without regard to otherwise applicable Federal procurement statutes and regulations.

(4) Paragraph (1) does not apply to any petroleum set aside for small refiners under subsection (d) or placed in the Strategic Petroleum Reserve under subsection (k).
