

Section 13055, Pub. L. 101-647, title II, §255, Nov. 29, 1990, 104 Stat. 4815, defined “Administrator” and “juvenile” for purposes of this subchapter.

Statutory Notes and Related Subsidiaries

EFFECTIVE DATE OF REPEAL

Pub. L. 102-586, §2(i)(2), Nov. 4, 1992, 106 Stat. 5015, provided that the repeal by that section is effective Sept. 30, 1993.

CHAPTER 133—POLLUTION PREVENTION

Sec.

13101.	Findings and policy.
13102.	Definitions.
13103.	EPA activities.
13104.	Grants to States for State technical assistance programs.
13105.	Source Reduction Clearinghouse.
13106.	Source reduction and recycling data collection.
13107.	EPA report.
13108.	Savings provisions.
13109.	Authorization of appropriations.

§ 13101. Findings and policy

(a) Findings

The Congress finds that:

(1) The United States of America annually produces millions of tons of pollution and spends tens of billions of dollars per year controlling this pollution.

(2) There are significant opportunities for industry to reduce or prevent pollution at the source through cost-effective changes in production, operation, and raw materials use. Such changes offer industry substantial savings in reduced raw material, pollution control, and liability costs as well as help protect the environment and reduce risks to worker health and safety.

(3) The opportunities for source reduction are often not realized because existing regulations, and the industrial resources they require for compliance, focus upon treatment and disposal, rather than source reduction; existing regulations do not emphasize multi-media management of pollution; and businesses need information and technical assistance to overcome institutional barriers to the adoption of source reduction practices.

(4) Source reduction is fundamentally different and more desirable than waste management and pollution control. The Environmental Protection Agency needs to address the historical lack of attention to source reduction.

(5) As a first step in preventing pollution through source reduction, the Environmental Protection Agency must establish a source reduction program which collects and disseminates information, provides financial assistance to States, and implements the other activities provided for in this chapter.

(b) Policy

The Congress hereby declares it to be the national policy of the United States that pollution should be prevented or reduced at the source whenever feasible; pollution that cannot be prevented should be recycled in an environmentally safe manner, whenever feasible; pollution that

cannot be prevented or recycled should be treated in an environmentally safe manner whenever feasible; and disposal or other release into the environment should be employed only as a last resort and should be conducted in an environmentally safe manner.

(Pub. L. 101-508, title VI, §6602, Nov. 5, 1990, 104 Stat. 1388-321.)

Editorial Notes

REFERENCES IN TEXT

This chapter, referred to in subsec. (a)(5), was in the original “this subtitle”, meaning subtitle F (§§6501, 6601-6610) of title VI, Pub. L. 101-508, which is classified generally to this chapter. For complete classification of subtitle F to the Code, see Short Title note below and Tables.

Statutory Notes and Related Subsidiaries

SHORT TITLE

Pub. L. 101-508, title VI, §6601, Nov. 5, 1990, 104 Stat. 1388-321, provided that: “This subtitle [subtitle F (§§6501, 6601-6610) of title VI of Pub. L. 101-508, enacting this chapter and section 4370c of this title] may be cited as the ‘Pollution Prevention Act of 1990.’”

§ 13102. Definitions

For purposes of this chapter—

(1) The term “Administrator” means the Administrator of the Environmental Protection Agency.

(2) The term “Agency” means the Environmental Protection Agency.

(3) The term “toxic chemical” means any substance on the list described in section 11023(c) of this title.

(4) The term “release” has the same meaning as provided by section 11049(8) of this title.

(5)(A) The term “source reduction” means any practice which—

(i) reduces the amount of any hazardous substance, pollutant, or contaminant entering any waste stream or otherwise released into the environment (including fugitive emissions) prior to recycling, treatment, or disposal; and

(ii) reduces the hazards to public health and the environment associated with the release of such substances, pollutants, or contaminants.

The term includes equipment or technology modifications, process or procedure modifications, reformulation or redesign of products, substitution of raw materials, and improvements in housekeeping, maintenance, training, or inventory control.

(B) The term “source reduction” does not include any practice which alters the physical, chemical, or biological characteristics or the volume of a hazardous substance, pollutant, or contaminant through a process or activity which itself is not integral to and necessary for the production of a product or the providing of a service.

(6) The term “multi-media” means water, air, and land.

(7) The term “SIC codes” refers to the 2-digit code numbers used for classification of economic activity in the Standard Industrial Classification Manual.
