shall by regulation fully provide for and protect such right.

The amount by which any such grant is so reduced shall be available for payment by the Secretary of the costs incurred in furnishing the supplies or equipment on which the reduction of such grant is based. Such amount shall be deemed as part of the grant and shall be deemed to have been paid to the grant recipient.

#### EX. ORD. NO. 14076. PROTECTING ACCESS TO REPRODUCTIVE HEALTHCARE SERVICES

Ex. Ord. No. 14076, July 8, 2022, 87 F.R. 42053, provided: By the authority vested in me as President by the Constitution and the laws of the United States of America, it is hereby ordered as follows:

SECTION 1. *Policy.* Nearly 50 years ago, *Roe v. Wade*, 410 U.S. 113 (1973), articulated the United States Constitution's protection of women's fundamental right to make reproductive healthcare decisions. These deeply private decisions should not be subject to government interference. Yet today, fundamental rights—to privacy, autonomy, freedom, and equality—have been denied to millions of women across the country.

Eliminating the right recognized in *Roe* has already had and will continue to have devastating implications for women's health and public health more broadly. Access to reproductive healthcare services is now threatened for millions of Americans, and especially for those who live in States that are banning or severely restricting abortion care. Women's health clinics are being forced to close—including clinics that offer other preventive healthcare services such as contraception—leaving many communities without access to critical reproductive healthcare services. Women seeking abortion care—especially those in low-income, rural, and other underserved communities—now have to travel to jurisdictions where services remain legal notwithstanding the cost or risks.

In the face of this health crisis, the Federal Government is taking action to protect healthcare service delivery and promote access to critical reproductive healthcare services, including abortion. It remains the policy of my Administration to support women's right to choose and to protect and defend reproductive rights. Doing so is essential to justice, equality, and our health, safety, and progress as a Nation.

SEC. 2. *Definitions.* (a) The term "agency" means any authority of the United States that is an "agency" under 44 U.S.C. 3502(1), other than one considered to be an independent regulatory agency, as defined in 44 U.S.C. 3502(5).

(b) The term "reproductive healthcare services" means medical, surgical, counseling, or referral services relating to the human reproductive system, including services relating to pregnancy or the termination of a pregnancy.

SEC. 3. *Protecting Access to Reproductive Healthcare Services.* (a) Within 30 days of the date of this order [July 8, 2022], the Secretary of Health and Human Services shall submit a report to the President:

(i) identifying potential actions:

(A) to protect and expand access to abortion care, including medication abortion; and

(B) to otherwise protect and expand access to the full range of reproductive healthcare services, including actions to enhance family planning services such as access to emergency contraception;

(ii) identifying ways to increase outreach and education about access to reproductive healthcare services, including by launching a public awareness initiative to provide timely and accurate information about such access, which shall:

(A) share information about how to obtain free or reduced cost reproductive healthcare services through Health Resources and Services Administration-Funded Health Centers, Title X clinics, and other providers; and

(B) include promoting awareness of and access to the full range of contraceptive services, as well as know-your-rights information for those seeking or providing reproductive healthcare services; and

(iii) identifying steps to ensure that all patients—including pregnant women and those experiencing pregnancy loss, such as miscarriages and ectopic pregnancies—receive the full protections for emergency medical care afforded under the law, including by considering updates to current guidance on obligations specific to emergency conditions and stabilizing care under the Emergency Medical Treatment and Labor Act, 42 U.S.C. 1395dd, and providing data from the Department of Health and Human Services concerning implementation of these efforts.

(b) To promote access to reproductive healthcare services, the Attorney General and the Counsel to the President shall convene a meeting of private pro bono attorneys, bar associations, and public interest organizations in order to encourage lawyers to represent and assist patients, providers, and third parties lawfully seeking these services throughout the country.

SEC. 4. *Protecting Privacy, Safety, and Security.* (a) To address potential heightened safety and security risks related to the provision of reproductive healthcare services, the Attorney General and the Secretary of Homeland Security shall consider actions, as appropriate and consistent with applicable law, to ensure the safety of patients, providers, and third parties, and to protect the security of clinics (including mobile clinics), pharmacies, and other entities providing, dispensing, or delivering reproductive and related healthcare services.

(b) To address the potential threat to patient privacy caused by the transfer and sale of sensitive health-related data and by digital surveillance related to reproductive healthcare services, and to protect people seeking reproductive health services from fraudulent schemes or deceptive practices:

(i) The Chair of the Federal Trade Commission (FTC) is encouraged to consider actions, as appropriate and consistent with applicable law (including the Federal Trade Commission Act, 15 U.S.C. 41 *et seq.*), to protect consumers' privacy when seeking information about and provision of reproductive healthcare services.

(ii) The Secretary of Health and Human Services shall consider actions, including providing guidance under the Health Insurance Portability and Accountability Act [of 1996], Public Law 104-191, 110 Stat. 1936 (1996) as amended by Public Law 111-5, 123 Stat. 115 (2009), and any other statutes as appropriate, to strengthen the protection of sensitive information related to reproductive healthcare services and bolster patient-provider confidentiality.

(iii) The Secretary of Health and Human Services shall, in consultation with the Attorney General, consider actions to educate consumers on how best to protect their health privacy and limit the collection and sharing of their sensitive health-related information.

(iv) The Secretary of Health and Human Services shall, in consultation with the Attorney General and the Chair of the FTC, consider options to address deceptive or fraudulent practices related to reproductive healthcare services, including online, and to protect access to accurate information.

SEC. 5. *Coordinating Implementation Efforts.* (a) The Secretary of Health and Human Services and the Director of the Gender Policy Council shall establish and co-chair an Interagency Task Force on Reproductive Healthcare Access (Task Force). Additional members shall include the Attorney General and the heads of other agencies as determined by the Secretary of Health and Human Services and the Director of the Gender Policy Council. The Task Force shall work to identify and coordinate activities to protect and strengthen access to essential reproductive healthcare services. In addition, the Task Force shall coordinate Federal interagency policymaking, program development, and outreach efforts to address barriers that individuals and entities may face in seeking and providing reproductive healthcare services. The Department of Health and Human Services shall provide funding and administrative support as may be necessary for the performance and functions of the Task Force.

(b) The Attorney General shall provide technical assistance, as appropriate and consistent with applicable law, concerning Federal constitutional protections to States seeking to afford legal protection to out-of-State patients and providers who offer legal reproductive healthcare.

SEC. 6. *General Provisions.* (a) Nothing in this order shall be construed to impair or otherwise affect:

(i) the authority granted by law to an executive department or agency, or the head thereof; or

(ii) the functions of the Director of the Office of Management and Budget relating to budgetary, administrative, or legislative proposals.

(b) This order shall be implemented consistent with applicable law and subject to the availability of appropriations.

(c) This order is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

J.R. BIDEN, JR.

EX. ORD. NO. 14079. SECURING ACCESS TO REPRODUCTIVE AND OTHER HEALTHCARE SERVICES

Ex. Ord. No. 14079, Aug. 3, 2022, 87 F.R. 49505, provided: By the authority vested in me as President by the Constitution and the laws of the United States of America, it is hereby ordered as follows:

SECTION 1. *Policy.* On July 8, 2022, following a decision by the Supreme Court to overrule *Roe v. Wade*, 410 U.S. 113 (1973), I signed Executive Order 14076 (Protecting Access to Reproductive Healthcare Services) [set out above]. As that order recognized, eliminating the right recognized in *Roe* has had and will continue to have devastating implications for women's health and public health more broadly.

Following that order, the Department of Health and Human Services (HHS) has taken critical steps to address those effects. These steps include clarifying the obligation of hospitals and providers under the Emergency Medical Treatment and Labor Act, 42 U.S.C. 1395dd, to provide to patients presenting at an emergency department with an emergency medical condition stabilizing care, including an abortion, if that care is necessary to stabilize their emergency medical condition, and issuing guidance to the Nation's retail pharmacies on their obligations under Federal civil rights laws—including section 504 of the Rehabilitation Act [of 1973], 29 U.S.C. 794, and section 1557 of the [Patient Protection and] Affordable Care Act, 42 U.S.C. 18116—to ensure equal access to comprehensive reproductive and other healthcare services, including for women who are experiencing miscarriages.

However, the continued advancement of restrictive abortion laws in States across the country has created legal uncertainty and disparate access to reproductive healthcare services depending on where a person lives, putting patients, providers, and third parties at risk and fueling confusion for hospitals and healthcare providers, including pharmacies. There have been numerous reports of women denied health- and life-saving emergency care, as providers fearful of legal reprisal delay necessary treatment for patients until their conditions worsen to dangerous levels. There are also reports of women of reproductive age being denied prescription medication at pharmacies—including medication that is used to treat stomach ulcers, lupus, arthritis, and cancer—due to concerns that these medications, some of which can be used in medication abortions, could be used to terminate a pregnancy. Reportedly, a healthcare provider, citing a State law restricting abortion, even temporarily stopped providing emergency contraception.

As it remains the policy of my Administration to support women's access to reproductive healthcare services, including their ability to travel to seek abortion care in States where it is legal, I am directing my Administration to take further action to protect access

to reproductive healthcare services and to address the crisis facing women's health and public health more broadly.

SEC. 2. *Definition.* The term "reproductive healthcare services" means medical, surgical, counseling, or referral services relating to the human reproductive system, including services relating to pregnancy or the termination of a pregnancy.

SEC. 3. *Advancing the Ability to Obtain Reproductive Healthcare Services.* In furtherance of the policy set forth in section 1 of this order, the Secretary of HHS shall consider actions to advance access to reproductive healthcare services, including, to the extent permitted by Federal law, through Medicaid for patients traveling across State lines for medical care.

SEC. 4. *Promoting Compliance with Non-Discrimination Law in Obtaining Medical Care.* In furtherance of the policy set forth in section 1 of this order, and to ensure that individuals are not denied necessary healthcare on the basis of any ground protected by Federal law, including current pregnancy, past pregnancy, potential or intended pregnancy, or other medical conditions, the Secretary of HHS shall consider all appropriate actions to advance the prompt understanding of and compliance with Federal non-discrimination laws by healthcare providers that receive Federal financial assistance. Such actions may include:

(a) providing technical assistance for healthcare providers that have questions concerning their obligations under Federal non-discrimination laws;

(b) convening healthcare providers to provide information on their obligations under Federal non-discrimination laws and the potential consequences of non-compliance; and

(c) issuing additional guidance, or taking other action as appropriate, in response to any complaints or other reports of non-compliance with Federal non-discrimination laws.

SEC. 5. *Data Collection.* The Secretary of HHS shall evaluate the adequacy of research, data collection, and data analysis and interpretation efforts at the National Institutes of Health, the Centers for Disease Control and Prevention, and other relevant HHS components in accurately measuring the effect of access to reproductive healthcare on maternal health outcomes and other health outcomes. Following that evaluation, the Secretary shall take appropriate actions to improve those efforts.

SEC. 6. *General Provisions.* (a) Nothing in this order shall be construed to impair or otherwise affect:

(i) the authority granted by law to an executive department or agency, or the head thereof; or

(ii) the functions of the Director of the Office of Management and Budget relating to budgetary, administrative, or legislative proposals.

(b) This order shall be implemented consistent with applicable law and subject to the availability of appropriations.

(c) This order is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

#### THE TITLE X "GAG RULE"

Memorandum of President of the United States, Jan. 22, 1993, 58 F.R. 7455, provided:

Memorandum for the Secretary of Health and Human Services

Title X of the Public Health Services Act [42 U.S.C. 300 et seq.] provides Federal funding for family planning clinics to provide services for low-income patients. The Act specifies that Title X funds may not be used for the performance of abortions, but places no restrictions on the ability of clinics that receive Title X funds to provide abortion counseling and referrals or to perform abortions using non-Title X funds. During the first 18 years of the program, medical professionals at

Title X clinics provided complete, uncensored information, including nondirective abortion counseling. In February 1988, the Department of Health and Human Services adopted regulations, which have become known as the "Gag Rule," prohibiting Title X recipients from providing their patients with information, counseling, or referrals concerning abortion. Subsequent attempts by the Bush Administration to modify the Gag Rule and ensuing litigation have created confusion and uncertainty about the current legal status of the regulations.

The Gag Rule endangers women's lives and health by preventing them from receiving complete and accurate medical information and interferes with the doctor-patient relationship by prohibiting information that medical professionals are otherwise ethically and legally required to provide to their patients. Furthermore, the Gag Rule contravenes the clear intent of a majority of the members of both the United States Senate and House of Representatives, which twice passed legislation to block the Gag Rule's enforcement but failed to override Presidential vetoes.

For these reasons, you have informed me that you will suspend the Gag Rule pending the promulgation of new regulations in accordance with the "notice and comment" procedures of the Administrative Procedure Act [5 U.S.C. 551 et seq.]. I hereby direct you to take that action as soon as possible. I further direct that, within 30 days, you publish in the Federal Register new proposed regulations for public comment.

You are hereby authorized and directed to publish this memorandum in the Federal Register.

WILLIAM J. CLINTON.

#### PROTECTING WOMEN'S HEALTH AT HOME AND ABROAD

Memorandum of President of the United States, Jan. 28, 2021, 86 F.R. 33077, provided:

Memorandum for the Secretary of State[,] the Secretary of Defense[,] the Secretary of Health and Human Services[,] and the Administrator of the United States Agency for International Development

SECTION 1. *Policy.* Women should have access to the healthcare they need. For too many women today, both at home and abroad, that is not possible. Undue restrictions on the use of Federal funds have made it harder for women to obtain necessary healthcare. The Federal Government must take action to ensure that women at home and around the world are able to access complete medical information, including with respect to their reproductive health.

In the United States, Title X of the Public Health Services [sic] Act (42 U.S.C. 300 to 300a-6) provides Federal funding for family planning services that primarily benefit low-income patients. The Act specifies that Title X funds may not be used in programs where abortion is a method of family planning, but places no further abortion-related restrictions on recipients of Title X funds. See 42 U.S.C. 300a-6. In 2019, the Secretary of Health and Human Services finalized changes to regulations governing the Title X program and issued a final rule entitled "Compliance With Statutory Program Integrity Requirements," 84 FR 7714 (Mar. 4, 2019) (Title X Rule), which prohibits recipients of Title X funds from referring patients to abortion providers and imposes other onerous requirements on abortion providers. The Title X Rule has caused the termination of Federal family planning funding for many women's healthcare providers and puts women's health at risk by making it harder for women to receive complete medical information.

It is the policy of my Administration to support women's and girls' sexual and reproductive health and rights in the United States, as well as globally. The Foreign Assistance Act of 1961 (22 U.S.C. 2151b(f)(1)), prohibits nongovernmental organizations (NGOs) that receive Federal funds from using those funds "to pay for the performance of abortions as a method of family planning, or to motivate or coerce any person to practice abortions." The August 1984 announcement by

President Reagan of what has become known as the “Mexico City Policy” directed the United States Agency for International Development (USAID) to expand this limitation and withhold USAID family planning funds from NGOs that use non-USAID funds to perform abortions, provide advice, counseling, or information regarding abortion, or lobby a foreign government to legalize abortion or make abortion services more easily available. These restrictions were rescinded by President Clinton in 1993, reinstated by President George W. Bush in 2001, and rescinded by President Obama in 2009. President Trump substantially expanded these restrictions by applying the policy to global health assistance provided by all executive departments and agencies (agencies). These excessive conditions on foreign and development assistance undermine the United States’ efforts to advance gender equality globally by restricting our ability to support women’s health and programs that prevent and respond to gender-based violence. The expansion of the policy has also affected all other areas of global health assistance, limiting the United States’ ability to work with local partners around the world and inhibiting their efforts to confront serious health challenges such as HIV/AIDS, tuberculosis, and malaria, among others. Such restrictions on global health assistance are particularly harmful in light of the coronavirus disease 2019 (COVID-19) pandemic. Accordingly, I hereby order as follows:

**SEC. 2. Agency Revocations and Other Actions.** (a) The Secretary of Health and Human Services shall review the Title X Rule and any other regulations governing the Title X program that impose undue restrictions on the use of Federal funds or women’s access to complete medical information and shall consider, as soon as practicable, whether to suspend, revise, or rescind, or publish for notice and comment proposed rules suspending, revising, or rescinding, those regulations, consistent with applicable law, including the Administrative Procedure Act [see 5 U.S.C. 551 to 559, 701 to 706].

(b) The Presidential Memorandum of January 23, 2017 (The Mexico City Policy) [82 F.R. 8495], is revoked.

(c) The Secretary of State, the Secretary of Defense, the Secretary of Health and Human Services, the Administrator of USAID, and appropriate officials at all other agencies involved in foreign assistance shall take all steps necessary to implement this memorandum, as appropriate and consistent with applicable law. This shall include the following actions with respect to conditions in assistance awards that were imposed pursuant to the January 2017 Presidential Memorandum and that are not required by the Foreign Assistance Act [22 U.S.C. 2151 et seq.] or any other law:

(i) immediately waive such conditions in any current grants;

(ii) notify current grantees, as soon as possible, that these conditions have been waived; and

(iii) immediately cease imposing these conditions in any future assistance awards.
