

lish minimum technical standards relating to cable systems' technical operation and signal quality. The Commission shall update such standards periodically to reflect improvements in technology. No State or franchising authority may prohibit, condition, or restrict a cable system's use of any type of subscriber equipment or any transmission technology.

(f) Limitation on regulatory powers of Federal agencies, States, or franchising authorities; exceptions

(1) Any Federal agency, State, or franchising authority may not impose requirements regarding the provision or content of cable services, except as expressly provided in this subchapter.

(2) Paragraph (1) shall not apply to—

(A) any rule, regulation, or order issued under any Federal law, as such rule, regulation, or order (i) was in effect on September 21, 1983, or (ii) may be amended after such date if the rule, regulation, or order as amended is not inconsistent with the express provisions of this subchapter; and

(B) any rule, regulation, or order under title 17.

(g) Access to emergency information

Notwithstanding any such rule, regulation, or order, each cable operator shall comply with such standards as the Commission shall prescribe to ensure that viewers of video programming on cable systems are afforded the same emergency information as is afforded by the emergency broadcasting system pursuant to Commission regulations in subpart G of part 73, title 47, Code of Federal Regulations.

(h) Notice of changes in and comments on services

A franchising authority may require a cable operator to do any one or more of the following:

(1) Provide 30 days' advance written notice of any change in channel assignment or in the video programming service provided over any such channel.

(2) Inform subscribers, via written notice, that comments on programming and channel position changes are being recorded by a designated office of the franchising authority.

(i) Disposition of cable upon termination of service

Within 120 days after October 5, 1992, the Commission shall prescribe rules concerning the disposition, after a subscriber to a cable system terminates service, of any cable installed by the cable operator within the premises of such subscriber.

(June 19, 1934, ch. 652, title VI, § 624, as added Pub. L. 98-549, § 2, Oct. 30, 1984, 98 Stat. 2789; amended Pub. L. 102-385, §§ 15, 16, Oct. 5, 1992, 106 Stat. 1490; Pub. L. 103-414, title III, §§ 303(a)(23), 304(a)(12), Oct. 25, 1994, 108 Stat. 4295, 4297; Pub. L. 104-104, title III, § 301(e), Feb. 8, 1996, 110 Stat. 116.)

Editorial Notes

REFERENCES IN TEXT

For "the effective date of this subchapter", referred to in subsecs. (b) and (c), as 60 days after Oct. 30, 1984,

except where otherwise expressly provided, see section 9(a) of Pub. L. 98-549, set out as an Effective Date note under section 521 of this title.

AMENDMENTS

1996—Subsec. (e). Pub. L. 104-104 substituted "No State or franchising authority may prohibit, condition, or restrict a cable system's use of any type of subscriber equipment or any transmission technology." for "A franchising authority may require as part of a franchise (including a modification, renewal, or transfer thereof) provisions for the enforcement of the standards prescribed under this subsection. A franchising authority may apply to the Commission for a waiver to impose standards that are more stringent than the standards prescribed by the Commission under this subsection."

1994—Subsec. (d)(2). Pub. L. 103-414, § 304(a)(12), struck out designation "(A)", inserted "of" after "restrict the viewing", and struck out subpar. (B) which read as follows: "Subparagraph (A) shall take effect 180 days after the effective date of this subchapter."

Pub. L. 103-414, § 303(a)(23), inserted "of" after "restrict the viewing" in subpar. (A).

1992—Subsec. (b)(1). Pub. L. 102-385, § 16(c)(1), inserted "except as provided in subsection (h)," after "but may not".

Subsec. (d)(3). Pub. L. 102-385, § 15, added par. (3).

Subsec. (e). Pub. L. 102-385, § 16(a), amended subsec. (e) generally. Prior to amendment, subsec. (e) read as follows: "The Commission may establish technical standards relating to the facilities and equipment of cable systems which a franchising authority may require in the franchise."

Subsec. (g). Pub. L. 102-385, § 16(b), added subsec. (g).

Subsec. (h). Pub. L. 102-385, § 16(c)(2), added subsec. (h).

Subsec. (i). Pub. L. 102-385, § 16(d), added subsec. (i).

Statutory Notes and Related Subsidiaries

EFFECTIVE DATE OF 1992 AMENDMENT

Amendment by Pub. L. 102-385 effective 60 days after Oct. 5, 1992, see section 28 of Pub. L. 102-385, set out as a note under section 325 of this title.

EFFECTIVE DATE

Section effective 60 days after Oct. 30, 1984, except where otherwise expressly provided, see section 9(a) of Pub. L. 98-549, set out as a note under section 521 of this title.

RESTORATION, RETIERMENT AND REPRICING OF SERVICE PREVIOUSLY ELIMINATED, RETIERED, OR REPRICED

Section not to be construed to allow a franchising authority, or a State or political subdivision thereof, to require a cable operator to restore, retier or reprice cable service previously eliminated, retiered, or repriced as of Sept. 26, 1984, see section 9(b) of Pub. L. 98-549, set out as a note under section 543 of this title.

§ 544a. Consumer electronics equipment compatibility

(a) Findings

The Congress finds that—

(1) new and recent models of television receivers and video cassette recorders often contain premium features and functions that are disabled or inhibited because of cable scrambling, encoding, or encryption technologies and devices, including converter boxes and remote control devices required by cable operators to receive programming;

(2) if these problems are allowed to persist, consumers will be less likely to purchase, and electronics equipment manufacturers will be

less likely to develop, manufacture, or offer for sale, television receivers and video cassette recorders with new and innovative features and functions;

(3) cable operators should use technologies that will prevent signal thefts while permitting consumers to benefit from such features and functions in such receivers and recorders; and

(4) compatibility among televisions, video cassette recorders, and cable systems can be assured with narrow technical standards that mandate a minimum degree of common design and operation, leaving all features, functions, protocols, and other product and service options for selection through open competition in the market.

(b) Compatible interfaces

(1) Regulations

The Commission shall issue such regulations as are necessary to assure compatibility between televisions and video cassette recorders and cable systems, consistent with the need to prevent theft of cable service, so that cable subscribers will be able to enjoy the full benefit of both the programming available on cable systems and the functions available on their televisions and video cassette recorders.

(2) Scrambling and encryption

In issuing the regulations referred to in paragraph (1), the Commission shall determine whether and, if so, under what circumstances to permit cable systems to scramble or encrypt signals or to restrict cable systems in the manner in which they encrypt or scramble signals, except that the Commission shall not limit the use of scrambling or encryption technology where the use of such technology does not interfere with the functions of subscribers' television receivers or video cassette recorders.

(c) Rulemaking requirements

(1) Factors to be considered

In prescribing the regulations required by this section, the Commission shall consider—

(A) the need to maximize open competition in the market for all features, functions, protocols, and other product and service options of converter boxes and other cable converters unrelated to the descrambling or decryption of cable television signals;

(B) the costs and benefits to consumers of imposing compatibility requirements on cable operators and television manufacturers in a manner that, while providing effective protection against theft or unauthorized reception of cable service, will minimize interference with or nullification of the special functions of subscribers' television receivers or video cassette recorders, including functions that permit the subscriber—

(i) to watch a program on one channel while simultaneously using a video cassette recorder to tape a program on another channel;

(ii) to use a video cassette recorder to tape two consecutive programs that appear on different channels; and

(iii) to use advanced television picture generation and display features; and

(C) the need for cable operators to protect the integrity of the signals transmitted by the cable operator against theft or to protect such signals against unauthorized reception.

(2) Regulations required

The regulations prescribed by the Commission under this section shall include such regulations as are necessary—

(A) to specify the technical requirements with which a television receiver or video cassette recorder must comply in order to be sold as "cable compatible" or "cable ready";

(B) to require cable operators offering channels whose reception requires a converter box—

(i) to notify subscribers that they may be unable to benefit from the special functions of their television receivers and video cassette recorders, including functions that permit subscribers—

(I) to watch a program on one channel while simultaneously using a video cassette recorder to tape a program on another channel;

(II) to use a video cassette recorder to tape two consecutive programs that appear on different channels; and

(III) to use advanced television picture generation and display features; and

(ii) to the extent technically and economically feasible, to offer subscribers the option of having all other channels delivered directly to the subscribers' television receivers or video cassette recorders without passing through the converter box;

(C) to promote the commercial availability, from cable operators and retail vendors that are not affiliated with cable systems, of converter boxes and of remote control devices compatible with converter boxes;

(D) to ensure that any standards or regulations developed under the authority of this section to ensure compatibility between televisions, video cassette recorders, and cable systems do not affect features, functions, protocols, and other product and service options other than those specified in paragraph (1)(B), including telecommunications interface equipment, home automation communications, and computer network services;

(E) to require a cable operator who offers subscribers the option of renting a remote control unit—

(i) to notify subscribers that they may purchase a commercially available remote control device from any source that sells such devices rather than renting it from the cable operator; and

(ii) to specify the types of remote control units that are compatible with the converter box supplied by the cable operator; and

(F) to prohibit a cable operator from taking any action that prevents or in any way

disables the converter box supplied by the cable operator from operating compatibly with commercially available remote control units.

(d) Review of regulations

The Commission shall periodically review and, if necessary, modify the regulations issued pursuant to this section in light of any actions taken in response to such regulations and to reflect improvements and changes in cable systems, television receivers, video cassette recorders, and similar technology.

(June 19, 1934, ch. 652, title VI, §624A, as added Pub. L. 102-385, §17, Oct. 5, 1992, 106 Stat. 1491; amended Pub. L. 104-104, title III, §301(f), Feb. 8, 1996, 110 Stat. 116; Pub. L. 115-141, div. P, title IV, §402(i)(10), Mar. 23, 2018, 132 Stat. 1090.)

Editorial Notes

AMENDMENTS

2018—Subsec. (b)(1). Pub. L. 115-141, in heading, substituted “Regulations” for “Report; regulations”, and in text, substituted “The Commission shall issue such regulations as are necessary to assure” for “Within 1 year after October 5, 1992, the Commission, in consultation with representatives of the cable industry and the consumer electronics industry, shall report to Congress on means of assuring” and struck out at end “Within 180 days after the date of submission of the report required by this subsection, the Commission shall issue such regulations as are necessary to assure such compatibility.”

1996—Subsec. (a)(4). Pub. L. 104-104, §301(f)(1), added par. (4).

Subsec. (c)(1)(A) to (C). Pub. L. 104-104, §301(f)(2), added subpar. (A) and redesignated former subpars. (A) and (B) as (B) and (C), respectively.

Subsec. (c)(2)(D) to (F). Pub. L. 104-104, §301(f)(3), added subpar. (D) and redesignated former subpars. (D) and (E) as (E) and (F), respectively.

Statutory Notes and Related Subsidiaries

EFFECTIVE DATE

Section effective 60 days after Oct. 5, 1992, see section 28 of Pub. L. 102-385, set out as an Effective Date of 1992 Amendment note under section 325 of this title.

§ 545. Modification of franchise obligations

(a) Grounds for modification by franchising authority; public proceeding; time of decision

(1) During the period a franchise is in effect, the cable operator may obtain from the franchising authority modifications of the requirements in such franchise—

(A) in the case of any such requirement for facilities or equipment, including public, educational, or governmental access facilities or equipment, if the cable operator demonstrates that (i) it is commercially impracticable for the operator to comply with such requirement, and (ii) the proposal by the cable operator for modification of such requirement is appropriate because of commercial impracticability; or

(B) in the case of any such requirement for services, if the cable operator demonstrates that the mix, quality, and level of services required by the franchise at the time it was granted will be maintained after such modification.

(2) Any final decision by a franchising authority under this subsection shall be made in a public proceeding. Such decision shall be made within 120 days after receipt of such request by the franchising authority, unless such 120 day period is extended by mutual agreement of the cable operator and the franchising authority.

(b) Judicial proceedings; grounds for modification by court

(1) Any cable operator whose request for modification under subsection (a) has been denied by a final decision of a franchising authority may obtain modification of such franchise requirements pursuant to the provisions of section 555 of this title.

(2) In the case of any proposed modification of a requirement for facilities or equipment, the court shall grant such modification only if the cable operator demonstrates to the court that—

(A) it is commercially impracticable for the operator to comply with such requirement; and

(B) the terms of the modification requested are appropriate because of commercial impracticability.

(3) In the case of any proposed modification of a requirement for services, the court shall grant such modification only if the cable operator demonstrates to the court that the mix, quality, and level of services required by the franchise at the time it was granted will be maintained after such modification.

(c) Rearrangement, replacement, or removal of service

Notwithstanding subsections (a) and (b), a cable operator may, upon 30 days' advance notice to the franchising authority, rearrange, replace, or remove a particular cable service required by the franchise if—

(1) such service is no longer available to the operator; or

(2) such service is available to the operator only upon the payment of a royalty required under section 801(b)(2) of title 17, which the cable operator can document—

(A) is substantially in excess of the amount of such payment required on the date of the operator's offer to provide such service, and

(B) has not been specifically compensated for through a rate increase or other adjustment.

(d) Rearrangement of particular services from one service tier to another or other offering of service

Notwithstanding subsections (a) and (b), a cable operator may take such actions to rearrange a particular service from one service tier to another, or otherwise offer the service, if the rates for all of the service tiers involved in such actions are not subject to regulation under section 543 of this title.

(e) Requirements for services relating to public, educational, or governmental access

A cable operator may not obtain modification under this section of any requirement for services relating to public, educational, or governmental access.
